SENATE PASSES THE ELKINS BILL

Measure Strongly Reinforces
the Inter-State Com-
merce Law.

NO DEBATE OR OBJECTION

Senate Also Passes the Army
Staff Bill—Day's Work
in the House.

Washington, Feb. 3.—The senate today, without debate or objection, passed the Elkins bill to amend the inter-state commerce law, a measure which provides heavy financial penalties for violations by rebates and other well known means of discrimination.

At the conclusion of the morning business some minor bills were passed, among them one amending sections 5191 and 5192 of the revised statutes, the effect of the amendment being to allow national banks to keep their reserves in cities of 30,000 population instead of 50,000 population, as at present.

Mr. Clapp then called up the bill to further regulate commerce with foreign nations and among the states, known as the Elkins bill.

Before its reading was concluded the army appropriation bill was laid before the senate in accordance with the understanding yesterday. The general staff provision of the measure, on motion of Mr. Proctor, was stricken from the bill.

The committee amendment regarding the payment or reimbursement of payments made of just bills and charges for the support, care and treatment of sick officers and enlisted men was withdrawn, and a substitute adopted appropriating \$200,000 for the purpose. As amended the bill was passed.

ARMY BILL PASSED.

Mr. Berry (Arkansas) then asked that his motion made Saturday to reconsider the general staff bill be laid upon the order of the day. An amendment which was agreed to, putting the chief of staff under the direction exclusively of the president and not jointly with the secretary of war.

Mr. Berry withdrew his objection and the bill was passed.

The reading of the Elkins bill then was resumed. An amendment was agreed to broadening the immunity to persons giving testimony in cases coming under the provisions of the bill. The committee amendments were all agreed to and as amended the bill was passed.

Consideration of the omnibus statehood bill then was resumed and Mr. Quarles continued his speech in opposition to the measure.

IN THE HOUSE.

Washington, Feb. 3.—Under the order made last Saturday the thirteen claims bills favorably acted upon in committee of the whole on Friday, but not disposed of by the house, were taken up in the house today.

Mr. Payne, the republican leader, who opposed the bills in committee of the whole, attacked the first one which provided for the payment of two years pay and allowances (about \$7,000) to the widow of Charles B. Goldsborough, an assistant surgeon in the marine hospital service, who died of blood poisoning contracted in the service. He opposed it on the ground that it would establish a bad precedent, one tending in the direction of a civil pension list.

"Are there not now 1,000 or more superannuated government clerks practically on a civil list?" asked Mr. Hepburn.

"There may be many clerks who are not fully earning their salaries," replied Mr. Payne, "but it is not the fault of congress. It is the fault of the executive branch of the government."

The bill was defeated 49 to 67.

Mr. Payne characterized the next bill, which was to pay Jos. A. Parish, the balance alleged to be due on a contract for the delivery of 30,000 tons of ice to the army in 1893, (some \$300,000) as the "most barefaced case which would be presented to the house today and he hoped for some time to come."

Mr. Graft, of Illinois, in charge of the bill, replying to Mr. Payne, charged him with raising the cry last Friday that the treasury was being looted and yet being unable after investigation to find a valid reason for opposing 36 of the 49 bills acted upon on that day.

The bill was passed 100 to 98.

MR. BASH'S PAPER.

Early in January Charles S. Bash, of this city, read a paper on "The Relative Dependency of the Miller to

the Elevator Man and the Farmer" before the Indiana Grain Dealers' association at Indianapolis. It was hurriedly prepared while listening to other speakers in the convention, but has been so generally recognized as a treatise of much value that the grain trade journals are reprinting it and also issuing the address in the form of pamphlets for distribution among members of the association.

WILL ELECT OFFICERS.

Stockholders in the new Fort Wayne Brick and Tile company just organized through the efforts of Councilman Bernard Borkenstein, will hold a meeting at the rooms of the Commercial club Wednesday evening for the purpose of electing officers.

SHOT SWEETHEART AND THEN HIMSELF

A New York Waiter Inflicts
Fatal Wounds on Woman
and Takes Poison

New York, Feb. 3.—A man named B. Bidlich, a waiter, went to the residence of Bernhard Beinecke, president of the Illinois Cattle Feeding company, today, and asked for the housekeeper, a woman named Garlin. When the woman came to the door Bidlich shot her, the bullet entering the breast. As she turned to run the man fired two more shots, both of which struck her in the back, and she fell dying. Bidlich then drank carbolic acid and fired two shots into his head. Bidlich had been the woman's sweetheart until recently, when they quarreled.

Both Bidlich and the housekeeper were taken to a hospital, where it was said neither could recover. The woman was unconscious.

Pinned to the man's suspenders was a photograph of the woman and himself. The members of the Beinecke family are prostrated by the tragedy.

MAY REARRANGE

RURAL ROUTES

Inspectors Preparing to Pass
on Changes Desired by
Allen County Patrons

While the rural free delivery of mail in Allen county is being carried forward in a manner highly acceptable, it is probable that within a short time there may be changes on several of the routes in order to equalize the work of the carriers and reach, also, a greater number of patrons.

A short time ago A. P. Weaver and others petitioned to have route No. 6, running southward from Fort Wayne, extended to reach territory a mile further south than by the original plan, and the local postoffice authorities are advised that the matter is now in the hands of inspectors who will make an investigation of the desirability of such change.

There is also likelihood that some changes may be made in the northern routes, territory being taken from one and given to another. There is also a desire to get more thoroughly into Bel River township territory, and it is more than likely that when this is done it will be by means of a new route established from Huntington. A petition asking for the service has been in Washington for many months.

GRAIN DEALERS TO COME TOMORROW

Joint Meeting of Indiana and
Ohio Associations Occurs
at Wayne Hotel.

Grain dealers of northeastern Indiana will unite with their brethren from northwestern Ohio in this city tomorrow in a joint meeting of the two associations. The Fort Wayne meeting will be held at the Wayne hotel.

During the day meeting the members will discuss a variety of matters of mutual interest to the dealers, and in the evening the visitors will enjoy an elaborate banquet at the Wayne. It is expected that a large number will be present.

The Ladies' Aid society of Redeemer Lutheran church will be entertained Wednesday afternoon by Mrs. William Kilgman, of 1244 Lafayette street. The regular monthly business meeting will be held Thursday afternoon at the church.

MR. BOWEN'S NOTE STIRS THE ALLIES

Great Activity in Washington
Over Latest Phase of Ven-
ezuela Matter.

CONFERENCES ARE HELD

Movement Now Tends to
Throw Whole Affair Into
The Hague Court

Washington, Feb. 3.—Mr. Bowen's decisive note last night rejecting the decisional scheme proposed by the British ambassador led to numerous conferences today. It was stated that the representatives of the allies expected to cable this note in extension to their respective capitals today, but there is reason to believe that a very adequate idea of its nature already has been conveyed to London, Berlin and Rome so that the foreign offices there are pretty well advised of Mr. Bowen's attitude, even if they are not in possession of all of the details of his argument.

A JOINT CONFERENCE.

Baron Sternburg was an early caller at Mr. Bowen's hotel today and an hour later was joined in Mr. Bowen's rooms by the British ambassador, and they spent half an hour in joint conference with Venezuela's representative, the British ambassador leaving first. It is certain that attempts to reach a compromise have been by no means abandoned and that this forenoon's conference was devoted to that object. By appointment the three representatives shortly afterwards met at the British embassy, and while, owing to the rigid limitations under which they are acting, these representatives must refer to their home governments at every step in the negotiations, they are still not precluded from themselves devising schemes of settlement which may be approved.

TALK OF NEW COMPROMISE.

It appears that the issue is now between a reference of the case to The Hague tribunal for adjudication of the single point of preferential claims and the framing of a complete compromise agreement here in Washington which shall provide for a full settlement of all the Venezuelan claims. It is known that Baron Sternburg, representing Germany, is earnestly desirous of avoiding recourse to The Hague, and wishes to reach a speedy settlement in Washington by direct arrangement between Mr. Bowen and himself. Mr. Bowen is perfectly willing to meet this wish, but sooner than sacrifice the principles involved in the allowance of preferential claims in undue proportion he is willing to surrender whatever of personal glory he might have expected to realize from effecting a complete settlement here and allow the case to go to The Hague.

AN OBSTACLE REMOVED.

The point has been made that a mere desire on the part of Venezuela's representative to send the case to The Hague is not sufficient to effect that, inasmuch as conditions precedent must be met. It is now learned that this obstacle no longer exists; Mr. Bowen is prepared to pay down immediately the small amount of cash indemnity on account of personal insults sustained that the allies are now willing to accept, as sufficient to inaugurate action at The Hague.

BRITISH OPINION.

Berlin, Feb. 3.—The German ambassador to London, Count Wolff-Metternich, in a dispatch to his government, referring to British public opinion on the Venezuelan question and the British cabinet's attitude in consequence thereof, says the government is conscious of lack of popular support in its association with Germany, especially of the disapproval of the middle classes. Premier Balfour and Foreign Minister Lansdowne have the support of the other members of the cabinet in their steadfast determination to carry out the agreement with Germany, but the ambassador ventures the opinion that Lord Lansdowne's position is weakened through loss of public support and that the cabinet is in a mood to accept almost any way out of the Venezuelan entanglement that promises the ultimate payment of the claim.

BATTLE NEAR CARACAS.

New York, Feb. 3.—President Castro's troops, according to a dispatch to the Herald from Willemstad, Island of Curacao, are engaged in battle with a strong revolutionary force fourteen miles south of Caracas. There has been no decisive result, but the rebels have gained ground. According to latest reports the in-

surgeants are advancing on all sides.

VENEZUELA ABLE TO PAY.

New York, Feb. 3.—Herr G. Von Pilgrim-Baltazzi, German charge d'affaires in Caracas, when the present Venezuelan imbroglio began, who reached this port yesterday, said in the course of an interview that Venezuela should easily be able to pay (Continued on Page 10.)

NOBLE COUNTY PIONEER DEAD.

Albion, Ind., Feb. 3.—John P. Kitt, a prominent pioneer of Noble county, died Monday at his home near Merriam, this county, at the age of 78 years. Mr. Kitt was a wealthy farmer and had served as county commissioner.

PRINCESS COMPANY FILES ARTICLES

New Fort Wayne Company
Will Make Ladies' Skirts
—Another Industry.

The Princess Manufacturing company is the name of a new Fort Wayne manufacturing institution, which has just filed its articles of incorporation. The Princess company is capitalized at \$15,000, with Samuel Fisher, Will Peters, Fred McCracken, C. G. Guild, Fay Randall and William Becker as a board of directors. Mr. Fisher is president, Mr. Peters secretary and Mr. McCracken treasurer.

The Princess company will manufacture ladies' skirts, and will establish a factory at some point in this city, the matter of location having not yet been decided. The company has purchased the business of an established Chicago concern, and Will Peters is now in that city conducting the business until it can be removed to Fort Wayne about March 1.

MAKE TELEPHONE GOODS.

Messrs. F. X. Statz and M. E. Larimer have just embarked in business under the name of the Fort Wayne Telephone and Manufacturing company, with offices at 24 Bank block. The company will deal in telephones, switchboards and telephone supplies generally, and will be equipped to build much of the equipment to order for its customers. Mr. Statz is president and Mr. Larimer secretary and treasurer of the company.

CANTRELL FOUND HIS SWEETHEART'S BODY

King of Body Snatchers Was
Turned Against Work by
Ghastly Find.

Indianapolis, Ind., Feb. 3.—The examination of jurors in the trial of Dr. J. C. Alexander, charged with complicity in the grave-robbing cases, was resumed today in the criminal court. Many men were called, examined and rejected.

A story is made public today to the effect that Rufus Cantrell, the negro leader of the alleged ghoulies, of whom thirty-nine are under indictment, revealed the secrets of the gang because he found the body of his sweetheart, Stella Middleton, in a medical college when he returned to the city after an absence of several days. He did not know that she had died while he was away, and according to his story, which he is said to have told before the grand jury, he was so wrought up over the discovery that he made a full confession to the prosecutor. It was this confession that brought to light the wholesale devastation of the graveyards around Indianapolis.

KOLBACH IS BETTER.

John Kolbach, who was so frightfully burned in the explosion at the Eckart packing house Thursday, is somewhat improved, and Dr. Mikessell says his chances for recovery are now more favorable. Kolbach is 69 years of age, and this fact has militated against his quick recovery. The other injured are all reported as improving.

ADJUSTERS ARE HERE.

A number of insurance adjusters arrived in the city today to take up the work of settling the losses incident to the Eckart packing house explosion. The insurance men visited the plant to view the extent of the damage, but there has as yet been no adjustment of the losses.

Drs. A. E. Bulson, M. F. Porter and G. W. McCaskey have gone to South Bend to attend a meeting of the St. Joseph County Medical society.

WILL FIGHT THE TREATY ON FLOOR

Committee Reports Canal Pact
to Senate and Morgan
Will Battle There

DEBATE WAS SHUT OFF

Alabama Senator Not Given
Time to Finish Discussion
in Committee.

Washington, Feb. 3.—The senate committee on foreign relations today agreed to report favorably the treaty with Colombia for building an Isthmian canal.

The agreement to report the treaty was reached after three or four hour sittings devoted in the main to hearing Senator Morgan's objections to the document in its present shape. He had not concluded when the vote to report was taken today, but he announced that he would be willing to transfer the discussion to the floor of the senate. This was in accordance with a suggestion made by Senator Cullom, chairman of the committee, who told the dissenting senator that he had satisfied himself that the committee was prepared to report the treaty to the senate without amendment and that owing to the pressure of other business the members were anxious that the committee's discussion of the subject should come to an end.

He added the supposition that Mr. Morgan would desire to present his amendments to the senate, and suggested that there was no necessity for a discussion of the same points both in the committee room and the senate chamber. Senator Morgan assented to this proposition and said he would not feel offended in the least if the treaty should be reported. A vote upon the resolution to report then was taken and was carried by a large majority. Only two senators, Morgan and Bacon, voted against it. Senator Bacon announced that his opposition was to the time of reporting and not to the treaty itself. He said he was favorable to the treaty as it stands and would vote for it, but that he believed that it should not be reported until consideration of committee should be thoroughly exhausted.

CABINET CONSIDERS VENEZUELAN AFFAIR

This Government Not Yet in
the Controversy—Bids for
Ships Awarded.

Washington, Feb. 3.—President Roosevelt and all the members of his cabinet were in session for an hour and a half today, at least two subjects of importance occupying their attention. It is known that the Venezuelan question was under consideration for some time, but at the conclusion of the meeting no member of the cabinet would discuss, for publication, this phase of the meeting. It can be said that this government while deeply interested in the pending negotiations has taken yet no part in the controversy. Both the president and his cabinet are entirely hopeful of an early adjustment of the difficulty, although it is realized fully that serious obstacles remain yet to be overcome.

Again today the cabinet discussed the award of bids recently received for the armored cruisers, Tennessee and Washington. A decision was reached and at the conclusion of the meeting Secretary Moody made public the following statement:

"The navy department has decided upon the award of contracts for the two 14,500 ton armored cruisers, Tennessee and Washington. The bid of Wm. Cramp & Sons, of Philadelphia, for two vessels at \$4,035,000 has been accepted for one vessel with the stipulation offered that the plans of the government shall be followed. In view of the fact that the New York Shipbuilding company of Camden, N. J., one of the best equipped shipyards in the world, is the only large shipyard in the United States not now accustomed to naval work, and as this company was also the lowest bidder for two ships on the government's plans, the second vessel has been awarded to it at the same price of \$4,035,000. The only bid received from the Pacific coast was \$4,385,000, which was not within the 4 per cent increase over the lowest accepted bid allowed by law for vessels built on that coast. These awards

are approved by the president, as required by law."

STRIKE ON THE ERIE.

Huntington, Ind., Feb. 3.—(Special.)—Sixty machinists, comprising the entire working force of the Erie railroad machine shops here, went on strike at 10 o'clock today.

Master Mechanic Yergens, who lately came to this city from Fort Wayne, hired four men from the Wabash shops in Fort Wayne at 27 cents per hour. Other men here were getting but 26 cents, and when their demand for a raise to the price paid the Fort Wayne men was refused the strike resulted.

REVIVAL MEETINGS BEGIN.

Revival services began last evening at Calvary U. B. church under the direction of the pastor, Rev. J. W. Lake, Rev. J. A. Cummins, of Pierceton, assisting. Last evening a number indicated a desire to be saved and one conversion occurred.

BANK ROBBERS ARE NABBED IN ILLINOIS

Four Men Captured Soon After
Looting Cambridge Bank
of \$10,000

Peoria, Ill., Feb. 3.—A special to the Journal from Cambridge, Ill., says:

The First National bank here was robbed of about \$10,000 at 2 o'clock this morning by four men, and within a few hours the robbers were captured by citizens and marched to the county jail, where they are now held pending an examination. No trace of the money has yet been discovered, but it is believed it will be found soon as the robbers had practically no time for effective concealment of it. While the robbers were working in the bank snow began falling. This increased in volume and it was an easy matter for the posse to track the robbers to a barn two miles east of the city. Four men were found buried beneath straw and were taken to the jail.

MONROE AND SHARKEY MATCHED FOR BATTLE

Corbett and Jeffries Come to
Terms for Fight for the
Championship.

New York, Feb. 3.—Jack Monroe and Tom Sharkey signed articles today for a 20-round contest, to take place some time after four months.

Bids for the fight will be opened on March 3. It is provided that the club securing the fight must be satisfactory to both men. The men agree to split the purse, 75 per cent to the winner and 25 per cent to the loser. The referee is to be agreed on one month before the fight, and the Marquis of Queensberry rules are to govern the contest.

James J. Corbett signed articles here today for a twenty-round contest with James Jeffries for the heavyweight championship of the world, the fight to take place at Fort Erie, Canada, on June 20. Jeffries was not present, but the articles will be forwarded to him. The contest is to be for a purse of \$25,000.

APPLIED FOR A PATENT.

Harry Meyer, of the Meyer Cycle company, is the inventor of an improved steering wheel for automobiles and has applied for a patent through the W. G. Burns agency. The wheel is fitted with an attachment to one of the spokes, which permits of its being swung outward when the chauffeur is getting in or out of an automobile. When the wheel is in use it is fastened in place on the steering shaft with a thumb screw. The improvement is one that will be greatly appreciated by automobilists, as one of the drawbacks of the chauffeur's job has been the difficulty in getting in and out of a machine fitted with a steering wheel, owing to the fact that the wheel is placed close to the seat in order that it can be manipulated easily. Mr. Meyer's invention has been very highly spoken of in leading automobile journals.

CASE IS DISMISSED.

In the matter of the state vs. Harrod, which has been on trial before Justice Skelton, on motion of the prosecutor, the case was dismissed this afternoon. The case was in connection with the Lafollette outrages.

ALL SCATHELESS SAVE MR. DOBLIN

Naval Committee Gives Out Its
Findings in Lessler Bribery
Charge.

FIND ATTEMPT WAS MADE

Exonerates Lemuel E. Quigg
and Holland Submarine
Boat Company.

Washington, Feb. 3.—The committee on naval affairs of the house today agreed upon a report in the Lessler bribery charges in relation to the Holland submarine boats. The following are the findings:

"1. That the charge made by Mr. Lessler that an attempt had been made to corruptly influence his action respecting proposed legislation is sustained by the evidence; such attempt, in the opinion of the committee, having been made by one Philip Doblin, on his own initiative and responsibility, with the idea of making money for himself if he should find Mr. Lessler corruptly approachable.

"2. That there is no evidence to sustain the charge of an attempt by Lemuel E. Quigg to corruptly influence a member of the committee on naval affairs respecting proposed legislation pending before said committee and the house.

"3. That there is no evidence to sustain the charge of an attempt by the Holland Submarine Boat company or any of its agents to corruptly influence a member of the committee on naval affairs respecting proposed legislation pending before said committee and the house.

"In view of the foregoing we recommend that the clerk of the committee be directed to certify to the attorney general of the United States a copy of the testimony taken at the hearing with a request that he take such action as the law and the facts warrant."

"By a vote of 6 to 5 the committee decided against the proposition to authorize additional submarine torpedo boats.

THREE TRAINS ARE WRECKED AT GOSHEN

In a Blinding Snowstorm Col-
lision Occurs—Another
Train Hits Wreckage

Goshen, Ind., Feb. 3.—Three freight trains on the Lake Shore railroad were wrecked in a blinding snowstorm here today. A westbound train crashed into the rear of another and at the same time a fast daily train going east on another track caught the caboose of the wrecked train as it was thrown in its way. The wreckage was piled high, blocking both tracks. The engine crews escaped with slight injuries. The wreck took fire and the engine, caboose and three cars were burned. The Goshen fire department prevented the destruction of the entire train by checking the spread of the flames to several oil-tank cars.

NEW LIME COMPANY IS INCORPORATED

Many Fort Wayne Men
Interested in New Busi-
ness Venture.

The Huntington Consolidated Lime Company of Fort Wayne, capital stock, \$20,000, was incorporated today, when articles were filed with the secretary of state.

The incorporators are Henry Wehrenberg, Fred Busching, Martin Mindnich, A. D. Palmer, H. Koenig, William Busching, William Kruse, William Westhoff, Henry Hochmeyer and J. B. Kennedy. All are Fort Wayne men save Mr. Mindnich, who resides at Huntington.

The company has purchased twenty-four acres of land near Huntington and will at once open new lime quarries there, with a complete outfit for the preparing of the product for market. The Fort Wayne office of the company will be at the Kruse & Busching establishment, 323 East Superior street.

The ceremony of blessing the throats of the faithful occurred this morning at the Cathedral.

THE PEOPLE HAVE FOUND IT OUT

A GREAT MANY INVALIDS ARE BEING CURED AT THE RED CROSS MEDICAL ASSOCIATION.

A staff of eminent physicians and surgeons from the Red Cross Medical association have, at the urgent solicitation of a large number of patients under their care in this country, established a permanent branch of the institute in Fort Wayne, at 723 Clinton street, near the post-office corner.

These eminent gentlemen have decided to give their services entirely free for three months (medicine excepted) to all invalids who call upon them for treatment between now and February 28. These services consist not only of consultation and advice, but also of minor surgical operations.

The object in pursuing this course is to become rapidly and personally acquainted with the sick and afflicted, and under no conditions will any charge whatever be made for any service rendered for three months, to all who call before February 28. The doctors treat all forms of disease and deformities, and guarantee a cure in every case they undertake. At the first interview a thorough examination is made, and, if incurable, you are frankly and kindly told so also advised against spending your money for useless treatment.

Male and female weakness, hemorrhoids, catarrhal deafness, rupture, gonorrhea, cancer, all blood and skin diseases, all diseases of the rectum, and the drug habits, are positively cured by their new treatment. The chief associate surgeon of the institute is in personal charge.

Office hours: 9 to 12, 2 to 5, 7 to 8. SPECIAL NOTICE—If you cannot call send stamp for question blank for home treatment.

Greatest Medicine on Earth.

CONSUMPTION

Alpena, Mich., Feb. 23, 1903. I have recommended Dr. Koenig's Herbs to many cases of consumption, and in all cases it has had the desired effect, and especially so with Mrs. J. J. Koenig, of Alpena, Mich., who writes: "I have been suffering from consumption for many years, and have tried many remedies, but have not found any that have done me any good. I have now been using Dr. Koenig's Herbs for some time, and I feel much better, and I thank you for the medicine, the greatest medicine on earth for this disease."

Mr. O. P. Trower writes from Mt. St. Marys, Arizona, Clifton, that he has heard of a case from reliable authority, which defied the doctors' skill, but was cured by Dr. Koenig's Herbs.

A valuable book on "Feverish Diseases sent free to any address, and upon return of a few cents. This book is prepared by the Reverend Father Koenig, of Fort Wayne, Ind., since 1876, and has been translated into English, French, and German.

POCAHONTAS COAL

Pocahontas coal is a coal equal to hard coal for the reason that it lasts just as long as hard coal and in fact it is better in one respect; there is no waste to it. It all burns up and don't make no ashes, but a very small klinker. You can burn a furnace a week without taking out your ashes. It takes the place of hard coal in a furnace. It is one of the greatest heaters that is mined out of the earth. You can use it in a heating stove successfully. People that have learned to burn it never will use anything else. One great reason why it is the best coal, there is no waste to it. The proprietor is the first man to introduce it in the northern part of the state ten years ago, and where he sold it once he sold it again. Don't fail to give it a trial. Call up the old Wilding coal yard, the reliable yard, where you can get waited on promptly.

I have been in the coal business twenty years. I know pretty near how to wait on customers and know what kind of coal they can use.

FOUND HIS WIFE DEAD IN KITCHEN

Distressing Discovery Made by Henry D. Pantlind on Monday Evening

HAD INHALED DEADLY GAS

Woman Evidently Overcome in Attempt to Turn Down Gas in the Stove

Returning to his home, 12 Wagner street, at the close of his day's work on Monday, Henry D. Pantlind found the lifeless body of his wife lying upon the floor of the kitchen. The house was densely filled with fumes of partially consumed gas, which poured from the kitchen stove, where a roaring fire was burning, and her death had been due to asphyxiation.

Mr. Pantlind is a driver for the Pelletier undertaking establishment and he reached his home shortly before 6 o'clock Monday evening. He thought it strange that no light was burning, and passed hastily around to the kitchen and opened the door. The stove was red hot, the gas fumes were so dense that he could not enter at once, but called to his wife.

Here came no reply, and hastily summoning a neighbor he entered the home. Mrs. Pantlind's body was found lying upon the kitchen floor, but a short distance from the stove and near a door leading to the dining room. Her hands and face were still warm, and she was quickly carried out into the open air and a physician was summoned. All efforts to resuscitate the woman were futile. Life was extinct.

CHIMNEY WAS CLOSED.

Dr. W. W. Barnett, the coroner, was summoned, and his examination of the premises disclosed the fact that the stove pipe and chimney was almost entirely closed by the accumulation of soot, mortar, etc., and that in this condition, with a strong flow of gas in the stove, the fumes could not be carried away. There was being constantly thrown off a surplus dioxide gas and it was to the inhalation of this gas that the death was due. In the pantry adjoining the kitchen was found the body of a dog, which had been a household pet for many years, and the animal had succumbed to the same deadly fumes.

Mr. Pantlind says his wife had been suffering from a mental affection for a number of years, and while never manifesting violent symptoms, was at times wholly unaccountable for her actions. He says she could not be made to understand the danger of gas, and that on frequent occasions when the fire had been turned out for the night had quietly risen and lighted them again, turning on the gas at full pressure, and both narrowly escaped death as a result. At the same time Mrs. Pantlind resented having any person near to care for her, and insisted on being alone. Frequently, it is said, she would sit for hours in her chair, talking disconnectedly until she dropped into a dose from sheer exhaustion. The husband believes his wife did not realize that she was being overcome by the fumes until it was too late, and that then in her efforts to reach the stove and turn off the fire she fell to the floor, where her body was found later. All the windows and outer doors of the house were closed, and no fresh air could penetrate the house to neutralize the effects of the deadly fumes.

Mrs. Pantlind was a native of Ireland, 64 years of age, and so far as the husband is aware none of her relatives are living. She came with her parents when a child to Akron, Ohio, where she was reared. She was married at Norwalk, Ohio, in 1856, and two years later the family came to Fort Wayne. Three children of Mr. and Mrs. Pantlind died in youth, and the husband is the only survivor.

The remains were removed to the Pelletier undertaking establishment, where funeral services will be held Wednesday afternoon at 2 o'clock, conducted by Rev. Dr. Moffat. The interment will be at Lindenwood.

THE COLLINS ASSAULT.

Just a little light was thrown on the case of John Collins, of Edgerton, a merchant, who was knocked down on Douglas avenue last Friday night. Mr. Collins wrote to C. J. Loe, treasurer of Phoenix lodge, No. 101, acknowledging the receipt of a receipt for the payment of his dues. He also corrected a statement made that when he was assaulted he had \$250 on his person. He said that he had about that amount of money with him when he came to the city, but that he had made purchases and paid bills and that when assaulted he had less than \$5 on his person; this was after he had called at Mr. Loe's residence and paid to Mr. Loe's brother-in-law the amount of his dues. After the assault he was first taken to Mr. Loe's residence and from there went

to the drug store, where Dr. Miller sewed up his wound. He says he has no idea who assaulted him nor why he was assaulted.

ANNUAL MEETING TOMORROW.

The annual meeting of the Fort Wayne Gas company will be held at the company's offices in this city tomorrow. The proceedings are largely of a perfunctory character, and it is expected that the only out-of-town director who will be present will be S. T. Murdock, of Lafayette. It is stated that there is little likelihood of any official changes beyond one member of the directorate.

WOULD HAVE THEM ON ROLL OF HONOR

Judge Gray Pays Tribute to Men Who Tried to Rescue a Mob's Victim.

Philadelphia, Pa., Feb. 3.—Daniel T. McKelvey, a justice of the peace of Hazleton, who yesterday testified before the anthracite coal strike commission was recalled today for cross-examination. Counsel attempted to show that the witness had neglected his duty as an officer of the law because of his partiality towards the strikers. Witness did not deny that his sympathies were with the strikers, but asserted that he had not failed in his duty. He told of having been out an entire night among the strikers' pickets. His object, he said, was to advise the strikers to remain away from the company property and to create no disturbance.

Chairman Gray appeared dissatisfied with the witness' testimony concerning an assault upon a non-union man with which McKelvey had been charged. The chairman was unable to clearly understand witness' description of the occurrence and displayed considerable impatience.

"I suppose it is my fault that I cannot understand you 'squire,'" said Chairman Gray, "but I give it up." Commissioner Parker asked the witness if he had advised any of the men not to return to work. McKelvey said he had made several addresses during the strike and suggested to the men the advisability of remaining firm.

E. J. Curry, of Freehold, a general storekeeper, said the prices charged in the Marple stores averaged 12 1/2 per cent. higher than his prices. Wm. McLaughlin, of Shenandoah, said there were few scenes of disorder in that city, the notable exception being the riot in which Joseph Beddell was killed and which resulted in the call for troops.

Counsel questioned witness concerning the effect of General Gobin's celebrated "shoot to kill" order and said it created a general feeling of indignation. Witness said also that soldiers were frequently arrested for disorderly conduct. They were invariably taken from the civil authorities by General Gobin.

"What was General Gobin's attitude regarding the strikers?" witness was asked.

Chairman Gray decided against the admission of the question. He said: "General Gobin's attitude was that of a man sent to the place for the purpose of maintaining order, I suppose."

Mr. McLaughlin was cross-examined concerning the riot in which Mr. Beddell was killed. Asked if an attempt was made by any of the mob to rescue the victim, witness said three men had tried to assist him.

"What are the names of these men?" inquired Chairman Gray. "They deserve to be placed on the roll of honor."

Witness knew two of the three, Edward McGinnis and Michael Durkin, and Chairman Gray said he hoped the press would publish the names. William Rutledge, a miner employed in Pine Ridge colliery of the Delaware and Hudson company, was questioned concerning the limitation of the production. He said that ordinarily the loading of seven cars would constitute a day's work, but since the end of the recent strike he has been unable to load more than four and one-half cars daily because the supply of cars has been limited by the company. In answer to a question by Commissioner Watkins, witness said the breaker has been working an average of nine hours a day.

BUILDING LABORERS' CONVENTION OPENS

Over 100 Delegates Present at the First Meeting in Harmony Hall Today.

The opening session of the international convention of the Building Laborers' union was held this morning in Harmony hall, and 110 delegates responded to the roll call. There are several Canadian delegates in attendance at the convention and the representation is very fair.

The convention was called to order at 10 o'clock by Henry Heitje, who acted as temporary chairman, and he introduced City Attorney W. H. Shambaugh, who delivered an address of welcome in place of Mayor Berghoff, who was called out of the city on business. J. C. Werkman made a brief address on "Organized Labor," and welcomed the convention in behalf of the Fort Wayne Federation of Labor, of which he is president. International President Gilmore responded to the welcoming addresses, but owing to the fact that he was suffering from a severe cold his remarks were of a very brief nature.

The only business transacted at the morning session was the appointment of a committee on credentials, consisting of C. W. Brown, of St. Louis; F. J. Burns, of Worcester, Mass.; and William Burley, of London, Ont.

The afternoon session was called to order at 2 o'clock and routine business was the order of the meeting. There are many preliminaries to receive attention before the convention can get down to business, although the officers expect to have things in shape by tomorrow. The convention will be in session a week at least.

DIAMONDS RECOVERED.

Readers of The Sentinel will recall an item published several months ago stating that Mrs. J. J. Wood, of Old Fort Place, had been robbed of a number of diamonds alleged to be worth considerably in excess of \$1,000. Detective Colling worked on the case and after some days brought two girls, one a servant, the other a friend, to the police station, where they were closely examined. The girls were much abashed by their arraignment, but strenuously denied knowing anything of the whereabouts of the missing jewels. Their stories were straightforward and Detective Colling, shortly after the girls were under surveillance said that they were either altogether innocent or else they were the best actors he had ever seen. Yesterday while superintending the moving of some furniture in her dressing room Mrs. Wood found her diamonds. In removing a dresser from one side of the room to another a small package fell from behind the mirror and was picked up by Mrs. Wood. Upon opening it she found her missing diamonds and then for the first time she remembered that she herself had wrapped them up and placed them behind the mirror for safe-keeping. She forgot that she had put them away and on her return from New York realizing that they were gone naturally supposed they had been stolen.

Union Veteran Legion Urges Fine Structure for Site of Old Fort.

IN MEMORY OF GEN. WAYNE

Will Ask Congress to Place Magnificent Armory on Historic Ground.

Fort Wayne encampment No. 51, Union Veteran Legion, has originated and gotten under way a movement which it is hoped will result in the erection of a magnificent structure in Fort Wayne to the memory of Gen. Anthony Wayne. It is designed to place upon historic ground—the site of the old fort on East Main street—a fitting monument to the valor, the courage and the accomplishments of the famous revolutionary hero and Indian fighter.

For some time such a project has been under discussion among the members of the Union Veteran Legion in this city, but it did not assume definite form until last evening, when the encampment unanimously passed the following preamble and resolutions:

"Whereas, The 'old fort' in the city of Fort Wayne, Ind., is looked upon as the most historic spot in the state of Indiana, said fort having been constructed by the revolutionary hero and Indian fighter, Gen. Anthony Wayne, and

"Whereas, Every citizen of the state of Indiana will with patriotic ardor feel a pride to see a memorial armory building placed on that fort ground to the memory of Gen. Anthony Wayne; therefore be it,

"Resolved, That encampment No. 51, Union Veteran Legion, take the initial step to petition the congress of the United States to appropriate \$300,000 for the purpose of constructing such memorial building; and that the state of Indiana, through its legislature, are hereby also requested to make an appropriation to help in defraying the required cost of said memorial building in memory of Gen. Anthony Wayne.

"And further, that a copy of these resolutions be sent to all Union Veteran Legion encampments located in the state of Indiana; to all Grand Army of the Republic posts in Indiana; to all encampments of Spanish-American War Veterans, and all encampments of Sons of Veterans of Indiana.

"And further, that we earnestly request the mayor, city officials and common council and all citizens of Allen county, Ind., to assist in forwarding the necessary petitions to our national congress to further the object of these resolutions."

NAMED A COMMITTEE.

Col. J. C. Feltner, commanding encampment No. 51, at once appointed a committee of five well known veterans to direct the work of securing the building, and this committee will take up its task hopeful of success. Capt. E. W. Dickman is chairman of the committee and other members are C. J. Parr, G. H. Aldrich, Scott Swann and M. M. Thompson.

MAGNETS TAKE OUTING.

Cincinnati, O., Feb. 3.—Presidents Herrman, of the Cincinnati club; Robinson, of the St. Louis club, and Dreyfus, of the Pittsburgh club, accompanied by the local sporting editors and others, left this afternoon for an outing until Thursday night. President Herrman's friends in Cincinnati today promised President Dreyfus to take \$50,000 of stock in the proposed purchase of the Philadelphia National league club.

Miss Rose Peterson, Secretary Parkdale Tennis Club, Chicago, from experience advises all young girls who have pains and sickness peculiar to their sex, to rely on Lydia E. Pinkham's Vegetable Compound.

How many beautiful young girls develop into worn, listless and hopeless women, simply because sufficient attention has not been paid to their physical development. No woman is exempt from physical weakness and periodic pain, and young girls just budding into womanhood should be carefully guided physically as well as morally.

If you know of any young lady who is sick, and needs motherly advice, ask her to write to Mrs. Pinkham at Lynn, Mass., who will give her advice free, from a source of knowledge which is unequalled in the country. Do not hesitate about stating details which one may not like to talk about, and which are essential for a full understanding of the case.

Miss Hannah E. Mershon, Collingswood, N. J., says:

"I thought I would write and tell you that, by following your kind advice, I feel like a new person. I was always thin and delicate, and so weak that I could hardly do anything. Menstruation was irregular."

"I tried a bottle of your Vegetable Compound and began to feel better right away. I continued its use, and am now well and strong, and menstruate regularly. I cannot say enough for what your medicine did for me."

How Mrs. Pinkham Helped Fannie Kumpfe.

"DEAR MRS. PINKHAM:—I feel it is my duty to write and tell you of the benefit I have derived from your advice and the use of Lydia E. Pinkham's Vegetable Compound. The pains in my back and womb have all left me, and my menstrual trouble is corrected. I am very thankful for the good advice you gave me, and I shall recommend your medicine to all who suffer from female weakness." —Miss FANNIE KUMPF, 1922 Chester St., Little Rock, Ark. (Dec. 16, 1900.)

Lydia E. Pinkham's Vegetable Compound will cure any woman in the land who suffers from womb troubles, inflammation of the ovaries, kidney troubles, nervous excitability, nervous prostration, and all forms of woman's special ills.

FOREIGNERS FLEE FROM HONDURAS

Revolution Brewing in That Republic Over Situation in Politics.

New Orleans, Feb. 3.—Passengers arriving on the United Fruit company's steamer Breakwater direct from Puerto Cortez report that Americans are fleeing from Spanish Honduras in expectancy of a revolution which has been brewing in that republic for the past two months on account of the refusal of President Sierra, the present incumbent, to surrender the presidential seat to Senor Bonilla, who, the report says, has been officially elected the successor of Senor Sierra. President Sierra has been Honduras' executive of the past few years, but last fall an election was held. The vote showed that Senor Bonilla had received 45,000 votes, but President Sierra and Dr. Soto, another candidate, contested the election and asserted that fraud had been used. Sierra contends that he is president, while Bonilla says he is the official representative of the republic. Bonilla represents the liberals. Both have a large following. The con-

servatives, it is said, are making secret preparations for the fight.

PRESIDENT A FUGITIVE.

Washington, Feb. 3.—Disturbed conditions in Honduras, growing out of the recent presidential elections in that country, have caused certain American commercial interests to appeal to the government here for protection from anticipated damages to their properties. Bonilla, who was elected to the presidency of the country, has taken refuge on Amapala island, where he is organizing a force to displace the incumbent of the presidential office who refuses to surrender the reins of power. The turmoil resulting is reported to endanger American interests in that quarter and the navy department upon notice from the state department is about to dispatch the Boston or perhaps the New York from San Francisco down the west coast to Amapala.

Anyway posterity will be alive to know the result of the coal strike inquiry and harvest the results if there are any.

Castro is probably ready to resolve that if he gets through this trouble all right to pay as he goes. However, if he would only go his countrymen would probably forgive him for not paying.

The voting machine bill is progressing in the legislature and there is now little reason to doubt that a practical law will be enacted. It will be a proper sign of the times when Indiana votes by machinery, as all progressive states sooner or later will do.

Just to keep us in mind that life is a weary vale there is more than a remote prospect that the soft coal miners will quit work this spring. The outlook for renewal of the agreement between miners and operators has about reached the vanishing point and the only solace in sight is that the next coal famine will come on in summer time.

The state bar association has started in pursuit of Judge Rasch, of the Evansville bench, who signalized his ascension of the throne of justice by huckstering the appointments of his

court. Rasch refuses to resign and decent lawyers in Evansville refuse to practice in his court when it can be by any possibility be avoided. Rasch is staunch which it is to be hoped the bar association will be able to abate.

Hon. Gas Addicks, the scourge of Delaware, has just given reception to a very rude jolt in the short ribs as administered by the senate committee on judiciary, which has just rejected the nomination of a friend of Addicks whom the president reappointed United States district attorney for the pench tree state, an office the appointee resigned to run for congress on the Addicks ticket. Whether or not the action of the committee is a slap at the president cannot be stated, but it is not improbable Mr. Roosevelt will endure it with good grace, if it is, for the opportunity it gives him to cut loose from Addicks.

In New York they are imposing countervailing assessments on police captains who fail to do their duty. One has just been fined \$250 for failure to suppress a disorderly house in his precinct. The presumption seems reasonable, since it was in New York, that the officer failed in his duty because it was profitable to do so. In other words he was being paid for "protection." Probably the profit of his graft was wiped out by the fine. If fines come often enough and high enough perhaps police captains in Gotham may be made to see that their salaries are the only reliable source of revenue.

The remonstrance clause of the Nicholson code is one of the best features of the Indiana liquor laws. If it needs any tampering with it is in the interest of making it more effective. The fact of the matter is that there should be a law regulating the number of retail liquor houses in any community according to population. In Fort Wayne, a city of 80,000 population, there are about 200 licensed saloons, one for every 250 of population. Deduct from this average number of people to the saloon the women and children and the adult males who do not patronize saloons and it will probably be found that there are on an average many less than 100 patrons to each saloon in Fort Wayne. In some countries, in German cities for instance, these things are better ordered. Saloons are not permitted to spring up indiscriminately. They should not be permitted to do so in Indiana. In this city, within the radius of a square of the court house, there are approximately thirty saloons. The number is vastly too large, leaving out of consideration the question whether or not there should be any whatever. The law ought to regulate this matter. The number ought to be limited by prescriptions relating both to population and area and the dives weeded out by the process of prohibitive high license.

DISCOVERY IN ELECTRICITY.

Ithaca, N. Y., Feb. 3.—At a meeting of the Cornell electric society last night Prof. Frederick Bedell, of the physics department of Cornell university, announced a new discovery in electric power transmission whereby an alternating and a direct current may be sent at the same time. Experiments show great economy, the amount of copper being reduced one-half.

AUSTRIA MAY NOT HAVE AN EXHIBIT

Unpromising Report Made on Question of Participating at St. Louis

Vienna, Feb. 3.—The Austrian Industrial association has made a decidedly unpromising report to the government on the advisability of participating in the St. Louis exposition, saying that exhibiting in the United States always costs much and yields little, as under the present tariff conditions Austria cannot hope to obtain any considerable market there. Should, however, the government decide in favor of the project, the association advises the appointment of a prominent manufacturer or merchant to proceed immediately to St. Louis and make the best possible arrangements for exhibitors. The government, the association further reports, should appropriate a sum corresponding with the grants made by Germany and France to defray the cost of exhibiting. Under no circumstances, it is added, should a trifling subvention be given for the benefit only of a small group of exhibitors, as this would give a very inadequate idea of Austria's productive capacity.

HUMANE OFFICER'S REPORT.

TAKE GET-RICH-QUICK MEN.

New York, Feb. 3.—On charges of violating the postal laws in connection with a so-called "wheat syndicate," through the operation of which subscribers were promised a profit of \$200 in thirty days' time on an investment of \$50, four men were arrested yesterday. The prisoners described themselves as Fernando G. Gardner, a broker; Colgate Falos, a broker and member of the produce exchange; J. H. Evans, publisher of the Wall Street Press, and Henry C. Scriver, a general advertising agent, formerly president of the Alaska steamship line. The detectives making the arrest seized the books of the concern, many circulars setting forth the merits of the syndicate, and about 1,000 letters, about half of which, they say, contained complaints from the subscribers to the syndicate to the effect that they had received no profits from their investment.

GODFREY HUNTER ACQUITTED.

Louisville, Ky., Feb. 3.—According to a cablegram received here from Guatemala City from Dr. Godfrey Hunter, formerly United States minister to Guatemala, Godfrey Hunter, jr., was acquitted of the murder of William Fitzgerald, of Grand Rapids, Mich., in Guatemala City several months ago. The message stated that during the trial thirty-eight witnesses swore to the fact that there was a conspiracy against the life of young Hunter.

DOWNWARD COURSE

FAST BEING REALIZED BY FORT WAYNE PEOPLE

A little backache at first. Daily increasing 'till the back is lame and weak. Urinary disorders quickly follow. Diabetes and finally Bright's Disease.

This is the downward course of kidney ills. Don't take this course. Follow the advice of a local citizen. Mr. J. S. Tyler, of 115 Shawnee avenue, carpenter by trade, says: "I have great faith in Doan's Kidney Pills and can highly recommend them as a most worthy remedy. I was afflicted with kidney complaint for a number of years. It differed somewhat from the ordinary cases, for when I was up and around my back did not ache, but as soon as I got in bed it started, and the only way I could get relief was by getting up. Many a night I have spent sleeping in a chair. When I began taking Doan's Kidney Pills, sold at Meyer Bros. & Co.'s drug store I had become so bad that I had to get up nearly every night and could get no rest except in a chair. The very first night after I started to use this remedy I slept as well as I ever did without feeling one touch of pain. I hardly believe that many people are affected with their kidneys as I was, but whether they are or not they cannot make a mistake if they give Doan's Kidney Pills a trial."

Miss Mabel Myers delightfully entertained a number of her friends Friday evening at whist. First prizes were won by Miss Nellie Palmer and Frank Morgan and the consolations were awarded to Miss Georgia Peckham and Mr. Poury. A three-course luncheon was served after the games.

FED THE DOCTOR.

How He Made Use of Food.

Sometimes it is the doctor himself who finds it wise to quit the medicines and cure himself by food. "In looking around for a concentrated palatable prepared food I got hold of Grape-Nuts and immediately began using it four times a day, exclusively for breakfast with milk; for luncheon and dinner as dessert, and a cup on retiring," says a physician of Mt. Zion, Ill.

"I had had nervous dyspepsia for over a year. My normal weight is 140 pounds, but I had been steadily losing flesh until a month ago I only weighed 122 pounds. I concluded it was time to throw 'physic to the dogs' in my case. Twenty-four hours after starting the Grape-Nuts regime the fullness and distress after eating had ceased. The heartburn, water-brash, palpitation of the heart and other symptoms that had reminded me for over a year that I had a stomach, soon disappeared and I can now eat a square meal and feel good afterwards."

"I weighed yesterday and was surprised to find that I had gained 13 pounds in a month, and the end is not yet."

"The nervous symptoms have entirely disappeared and I am stronger than I have been for two years. I thank you for placing Grape-Nuts at the disposal of those suffering with nervous dyspepsia." Name given by Postum Co., Battle Creek, Mich.

SLOWLY ROASTED IN BURNING WRECKAGE

Horrible Fate of Brakeman in a Collision on the Baltimore and Ohio.

Akron, O., Feb. 3.—A work train running forty miles an hour on the Baltimore & Ohio road early today, near Easton, collided with a caboose and some coal cars that had broken away from a freight train. The caboose was demolished and Conductor William Miles, of New Castle, Pa., was killed and Brakeman J. R. Cooney, of the same place, fatally injured. Miles was pinioned in the wreckage and slowly roasted to death in the fire that broke out immediately after the accident. Miles and Cooney were asleep in the caboose.

THE EASY PILL.

DeWitt's Little Early Risers do not gripe nor weaken the system. They cure biliousness, jaundice, constipation and inactive livers by arousing the secretions, moving the bowels gently, yet effectually, and giving such tone and strength to the glands of the stomach, liver and bowels that the cause of the trouble is removed entirely. These famous little pills exert a decided tonic effect upon the organs involved, and if their use is continued for a few days there will be no return of the trouble. Meyer Bros. & Co.

Woman's Nightmare

No woman's happiness can be complete without children; it is her nature to love and want them as much so as it is to love the beautiful and pure. The critical ordeal through which the expectant mother must pass, however, is so fraught with dread, pain, suffering and danger, that the very thought of it fills her with apprehension and horror. There is no necessity for the reproduction of life to be either painful or dangerous. The use of Mother's Friend so prepares the system for the coming event that it is safely passed without any danger. This great and wonderful remedy is always applied externally, and has carried thousands of women through the trying crisis without suffering.

There's nothing so bad for a cough as coughing! There's nothing so good for a cough as Ayer's Cherry Pectoral!

A cough means a great deal to a young person, when there is a family history of weak lungs, with perhaps a case of consumption itself. Coughs weaken the tissues, congest the membranes, and prevent healing. Ayer's Cherry Pectoral controls the congestion and inflammation, and the cough disappears. Your doctor will explain, for we give all doctors the formula.

"We have used Ayer's Cherry Pectoral in our family for over 25 years. For all lung troubles it is sure there is no medicine so equal."—MRS. A. FOWLER, Appleton, Wis.

GET STRONG

Vinol Makes Weak People Strong.

WE GUARANTEE IT WILL DO SO.

WE KNOW OF NO TONIC OR RE-BUILDER LIKE IT.

Vinol does create strength. We know that and have proved it in many instances. The reason Vinol rejuvenates and strengthens a person is that it acts directly upon the stomach, strengthening and toning up this great vital organ and enabling it to obtain for itself, from the food that is taken into it, the elements which are required to make firm healthy flesh and muscle tissue, sound bone structure and pure healthy blood.

Vinol does this in a scientific way and is enabled to do it because it contains, dissolved in a delicate mild wine, in a highly concentrated state, the active principles of cod-liver oil.

Vinol does not contain any of the grease that formerly characterized cod-oil, hence is free from all the objectionable features which made it impossible for patients to take or retain that vile-smelling remedy into their stomach.

Vinol in its favorable action upon the stomach and other organs of the body acts also in a beneficial way upon the nerves and brain, and will be found to be invaluable to brain-workers as well as body workers.

The following letter is from a well-known author. It reads as follows: "I wish to acknowledge the receipt of the Vinol and testify to its great benefits. Since taking it I am much improved in health, and during the intense heat of last August I should not have been able to continue in my literary work if it had not been for the strengthening properties of Vinol. Yours in gratitude."—ELLA STARR, 105 W. 52d St., N. Y. City.

We wish any one suffering from weakness, a demoralized condition of the nerves, or a susceptibility to wasting diseases, to call on us and hear what we have to say in regard to Vinol.

Try it on our recommendation, and if you find it does not do everything we claim for it, we will gladly refund to you the amount you have paid us.

PAUL'S FAITHFUL DEVOTION TO GOD

The Apostle's Steadfastness
Theme of Dr. Wharton's
Sermon Last Night.

LIFE A POWER FOR GOOD

Immense Audience Hears the
Evangelist at First Pres-
byterian Church

The faithfulness and steadfastness of the Apostle Paul and his unwavering devotion to Jesus Christ was the theme of Evangelist Wharton's sermon at the First Presbyterian church last evening. Standing room was at a premium in the large auditorium and every available space was occupied, a number of people being obliged to find accommodation on the pulpit steps and platform. Dr. Wharton took as his text Acts 20:24: "But none of these things

move me, neither count I my life dear unto myself so that I might finish my course with joy and the ministry, which I have received of the Lord Jesus, to testify the gospel of the grace of God."

A GREAT CHRISTIAN.

He said in part: "Tonight I want to tell you of one of the greatest Christians the world has ever known—Saul of Tarsus, afterwards known as Paul the apostle. He had decided to follow Jesus Christ and in spite of every trial and discouragement he persevered; nothing could move him from the path he had chosen. He had the most perfect faith in his Master and followed him, and his life has been one of the mightiest for good in the Christian era."

"We shall take up some of the things with which Paul was tempted to swerve from the path he had chosen. He was ridiculed. Some of you here cannot stand to be laughed at; it will turn you from the path quicker than anything else. You wouldn't turn your back on the dance hall, the card table and the vaudeville just because your friends would smile at you. Paul wasn't that way. He maintained his course through storms of ridicule and emerged triumphant."

COULD NOT BE BOUGHT.

"Paul could not be bought. There are lots of Christians in the world who cannot be bought at any price, and there are lots of people who have sold themselves for the pleasures of the dance, the card game and the theater. Paul was offered every inducement to give up following his Master, but he declined. He couldn't be moved by threats. He was threatened with imprisonment and with torture, but he couldn't be moved. His relatives and friends tried to move him, but they could not. I know it's very hard for a young person to follow Jesus if his parents are not godly. Mother and father, it is your fault if your children are on the downward path. God bless the boy or the girl who can stand for the right against an ungodly father or mother."

"Why was it that none of these things moved Paul? I will tell you. He had given his life to Jesus Christ and when the Lord told him to acknowledge him he did so. Next he told Paul he must be baptized, and forthwith Paul went and was baptized. Then he told him to go forth and preach the gospel, and Paul made one of the greatest gospel tours the world has ever known. Paul made a complete surrender of himself to God and did as he was directed."

DEVOTED TO HIS WORK.

"Paul felt that the Lord had a work for him to do and he proposed to do it. He preached in one place for three years. Here we are going to stop just when we well started. God bless the man or woman who will stand up and say, 'God sent me into this world for a purpose and I shall do what he wants me to do.' What a power for good such a per-

son is. Gen. Stonewall Jackson was once asked how it was he was so calm and unmoved on the battlefield, and he replied: 'God put me into this world for a purpose. When he wants me he will send for me. When the time comes I shall be ready.' What an influence such a life is for good. Think what a sweet and perfect peace such a man has. Trusting absolutely in his Maker, he is not disturbed by anything that can occur. Put him anywhere and in the most unfavorable circumstances and he will sing the praises of his God."

"In the other room this evening I heard a young man say that the only reason he hesitated to speak to another about his soul was because he himself danced and played cards. But I am happy to say that that young man made a vow that he would give up both. Of course, he couldn't consistently talk to another about the welfare of his soul if he was taken up with worldly amusements."

NOT HARD TO BE LIKE PAUL.

"It should not be hard for us to be like Paul. We have the same God, the same Christ, the same bible and the same chance he had. They say that the chickens always come home to roost, and in the same way your good acts will come back to you."

"When I was passing through the Holy Land on the train I heard the brakeman call out one station, 'Tel el Kebir.' It was the only thing he said that I understood. That was the scene of General Walseley's great victory over the Egyptians a few years ago. He had been hunting for the Egyptian army for many days, but had been unable to locate it. Finally a young officer, Lieutenant Rosslyn, came to him and got permission to try to find them. Some time afterward the young lieutenant returned and reported that he had found them in the desert and that he could lead the army to where the Egyptians were encamped. Guided by a star, the British forces marched many nights across the desert and one morning they came upon the enemy, who were unaware of their nearness. Lord Walseley hurled his men into their camp and scattered the Egyptian army to the four winds. Soon afterward an officer reported that young Rosslyn had been mortally wounded and wanted to see General Walseley. The general hastened to where the young man lay, and kneeling down beside him, asked him what he wanted. 'Didn't I lead you right, General?' 'Yes,' Walseley replied, 'the credit for the victory is yours.'"

"O, friends, when we look into his face when we are called on for an accounting and say, 'Haven't I done right?' can his reply be, 'You have done right and the credit is yours?'"

Mrs. Fredericka Ackerman is dead at Kendallville. She was 67 years of age.

Preparations are under way to organize a county fair association at Butler, Dekalb county.

Clinton G. Wiggins is arranging to build a large summer hotel at Lake Wawasee.

Charles Neuer, for fifty years a resident of Huntington, is dead. He was long a boatman on the old Wabash and Erie canal.

Rev. Father Louis A. Moeuch, of Valparaiso, has been appointed temporarily to the pastorate of the Catholic church at Mishawaka.

In a bloody fight at Bluffton Saturday night, Bud Connor was stabbed three times by George Mock. His condition is dangerous.

Nelson Compton, a pioneer resident of Whitley county, died Sunday at the home of his son, in Smith township. He was more than 90 years of age.

Ernest Hupp, a well known South Bend citizen, has gone insane because of the coal famine. He thinks people are trying to steal his coal and he imagines that he sees robbers about his bin.

Naphtanee factory employees who were on a strike for higher wages, have lost their case. The companies made no concessions whatever, but most of the men have returned to work.

Two burglars attempted to force an entrance into the saloon of J. R. Sturgeon, at South Whitley, Saturday night. The proprietor, who was on guard in the place, fired several shots and frightened them away just as one of the burglars was crawling through a transom.

Dan, Lon and Orville Bowman, three brothers at Montpelier, started a fight Saturday evening, and before its termination four men had been slashed with knives. One of them, Harry Hunter, is in a critical condition. Lon and Orville Bowman are under arrest, but Dan, who was the leader in the fray, escaped.

While on their way to shoot an oil well, and with 300 quarts of nitroglycerine in the wagon, two men named Tubbs and Reed, of Hartford City, had an unusual experience. The axle of the wagon broke, but the jar failed to explode the stuff. Too surprised for words that they were still alive, the two men regarded each other in silent astonishment for a few moments, then carried the explosive back to the magazine, a mile away.

Mrs. Sarah Robinson, a widow who is housekeeper for George Minser, at Hartford City, advertised for a husband, and her ad was answered by Rev. Ensley M. Roberts, a country minister near Hartford City. The acquaintance progressed until the minister took the widow to church Sunday evening. When he reached the Minser home on his return with the widow, Minser gave the minister a terrible beating. It transpires that Minser was himself a lover of the widow. He has been arrested and is held to await the result of the injuries he inflicted upon the woeful parson.

Irving Rader, under a penitentiary sentence for having stolen a team of horses belonging to his wife and selling them to a Fort Wayne liveryman, escaped from the Auburn jail Sunday evening. Rader professed conversion Sunday, and while the sheriff and his wife were at church Rader asked the sheriff's daughters for a Bible. The book was brought him, and as the girls opened the cell door to hand him the book, Rader sprang out, struck each of the girls a brutal blow and got away. It was some time before either regained consciousness. The sheriff has offered a reward of \$50 for the arrest of Rader.

SOCIETY IS ORGANIZED.

"The Lutheran Hospital Society of Fort Wayne" was the name selected for the organization which is to erect and equip a new hospital in this city, and plans were discussed

at a meeting held Monday afternoon at St. Paul's Lutheran church. The work of preparation will go actively forward.

THINK STORY A FAKE.

Rumors which reached the city of a reported attempt to rob the grave of Mrs. David Opdyke, at Leo, Saturday night, are believed to have no foundation in fact. Some citizen of Leo was said to have observed two men enter the cemetery Saturday night, but when he yelled at them they took to their heels, climbed into their vehicle, which had been hitched a short distance away, and drove rapidly in the direction of this city. The remains of Mrs. Opdyke were buried there last Thursday, and the husband employed a man to watch the cemetery in the fear that his wife's grave might be despoiled. Monday Mr. Opdyke and County Commissioner Moody went to Leo and superintended the placing of a heavy covering of concrete above the casket. They heard nothing of the reported attempt at grave robbing, and the mound had not been tampered with.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

A NIGHT ALARM.

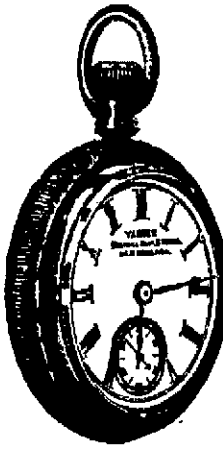

Worse than an alarm of fire at night is the brassy cough of croup, which sounds like the children's death knell and it means death unless something is done quickly. Foley's Honey and Tar never fails to give instant relief and quickly cures the worst forms of croup. Mrs. P. L. Cordier, of Mannington, Ky., writes: "My three-year-old girl had a severe case of croup; the doctor said she could not live. I got a bottle of Foley's Honey and Tar, the first dose gave quick relief and saved her life." Refuse substitutes. Sold by Dreier & Bro.

Mrs. E. H. Coombs will be hostess for the Friday Pedro club this week and she will be assisted by Mrs. Percy Olds.

One Minute Cough Cure gives relief in one minute, because it kills the microbe which tickles the mucous membrane, causing the cough, and at the same time clears the phlegm, draws out the inflammation and heals and soothes the affected parts. One Minute Cough Cure strengthens the lungs, wards off pneumonia and is a harmless and never failing cure in all curable cases of coughs, colds and croup. One Minute Cough Cure is pleasant to take, harmless and good alike for young and old. Meyer Bros. & Co.

The members of the Monday Night Dancing club enjoyed a masquerade hop last evening in the Anthony Wayne club, the guests numbering about sixty. The costumes were nearly all comic and in addition to the pleasures of the dance, the guests had lots of fun trying to guess each other's identity. Plumadore's orchestra played and Miss Harker directed the dancing.

The family of Edward Dierkes, at 418 West DeWald street, is sorely afflicted. Mr. Dierkes has been suffering from diphtheria, and Monday Mrs. Dierkes was taken ill. Her case is diagnosed as scarlet fever.

Supreme Strength

All that is good in a man comes from his vital force—from that stored up energy which feeds the brain and physical body with life. It is this grand power that makes a man respect himself and love his fellow-man. It is the power that makes life enjoyable and pictures everything brightly. Have you lost it? Have you wasted this precious vitality by excesses and abuse of the laws of nature? Then you are weak; you have lost confidence in yourself; you see things on the dark, gloomy side; your life is darkened and your body shows the effects of your dissipation in early decay. It can be restored. Don't get the blues, but call on Dr. Drybrough & Co., they will cure you to stay cured for your natural life. Rupture, Varicose, Hydrocele, Swellings, Tenderness, Strictures, Kidney and Urinary Diseases, all Blood, Skin and Private Diseases, absolutely cured by this treatment, after all other means have failed. Call and investigate. CONSULTATION FREE.

Pain

In My Heart I Could Not Lie Down.
Was On The Verge Of Insanity.

Choking Sensations I Was Afraid To Sleep.

"For years I was troubled with pain around the heart, fluttering and choking sensations—part of the time could not lie down. In short I was a nervous wreck, such violent feelings of the heart and lungs, nervous prostration—in fact was on the verge of insanity—was afraid to sleep for fear I would never awaken. I saw a testimonial in our paper from a man similarly afflicted, and at once I bought the help he received from the use of Dr. Miles' Remedies. By the persistent use of the Heart Cure, Nerve, and Pain Pills I soon felt like a new woman. I am never without these remedies now. In writing the above I feel that I have not been through it all or can know what 'on the verge of insanity' means. Your remedies were surely a god-send to me. There is scarcely a week that I do not feel better, and in nearly every case I find someone to try your remedies, and the results are so satisfactory that they continue to take them. One recent instance I recall. I was in Laurens, S. C., and called to see a friend who was very sick with muscular rheumatism. She was nearly crazed with pain and had given the money to my mother to get her some morphine to quiet the pain. I told her what your Pain Pills had done for me and finally persuaded her to send for them. She had only to take two of the Dr. Miles' Anti-Pain Pills and she was free from pain."—Mrs. Arthur Osborn, Decatur, Mich.

EMULSION of Cod Liver Oil with Hypophosphites

This emulsion is made right here in our laboratory. Every part of the work is done with precision according to the United States Pharmacopoeia requirements, which are the standard for all pharmaceutical compounding.

No doubt some of the advertised brands of Cod Liver Oil Emulsion have merit, but none of them could contain more of the essential ingredients or be made with more skill.

In actual use by our customers this emulsion, as we make it, gives results superior to any that we observe from other emulsions.

We believe it to be the most valuable Emulsion of Cod Liver Oil to be had and guarantee it to be satisfactory or money back. Price, \$1.00.

HE WAS ELOQUENT BUT NOT EFFECTIVE

Frank Revelle Sent to Jail for Beating a Board Bill—The Police News.

Frank Revelle, a voluble young man, furnished the most picturesque incident at police court this morning. On January 23d he was sent over to Sheriff Stout's storage rooms for eleven days on a charge of being drunk. Revelle was found at the St. Nicholas hotel pretty well tanked up and when the officers tried to make him behave he tried to tell them that they had whistled for the wrong crossing. He got very funny and then the officers dealt themselves seven cards and the next morning Mr. Revelle got it in the neck for eleven days. About this time it developed that he had beaten a board bill at Mrs. Muhls', No. 120 West Superior street, and then things commenced to pile up rather rocky for Revelle. This morning his term at the jail expired and he was arrested at the door on the board-bill business and was carted over to police court just in time to catch the last car. He pleaded not guilty, and then Mr. Muhls was put on the stand. He told that Revelle came to his house some time before Christmas and put his feet under the table and used the salt cellar for about a week, and in addition to that brought with him a friend who also had board for a week. The total bill is \$8 and before Christmas Revelle said he would pay the following Monday. Revelle never came back and about a month later was arrested for drunkenness, after which the new affidavit was filed.

Then Mr. Revelle had an inning. He tore off eloquence by the yard and almost tearfully informed the judge that he was a struggling young orphan, left alone in the world at an early age, and was trying to educate himself for the newspaper profession; that he is an artist of no mean ability, and that a board bill was one of the first things that a man should take care of. He talked like an educated phonograph for about five minutes and had the judge just about won when, during a whispered consultation between the chief of police, the judge and Mr. Muhls, something happened, whereupon the judge said that while it was no pleasure to him to send a man to jail he would have to assess a fine of a dollar and costs. Mr. Revelle, it might be stated in red ink, is a mighty smooth talker from way back. Before being sentenced he said very eloquently: "Your honor, just a word. I admit that appearances are somewhat against me, but if given an opportunity I will certainly liquidate this bill which I have never repudiated. In considering this case I ask only that you season justice with mercy and then you will be thrice a just judge." It was a good speech, but it got him a mittimus for eleven days, just the same.

Cornelius Monahan was arrested last evening for being drunk and this morning he pleaded guilty to the charge. Cornelius had been doing some stunts in the way of illustrating rampages on Calhoun street, and after being locked up expressed deep regret that he hadn't shot a few holes through the vitals of the police department. When he was searched a rather formidable looking gun was found on his person. He was locked up and an affidavit was filed against him for carrying concealed weapons and the warrant was placed in the hands of the sheriff, to be served when the sentence for drunkenness expires, which will be in about sixteen days.

POLICE NOTES.

Officers were called to the corner of Rockhill and Wayne streets last night by a report that prowlers were in the vicinity. A thorough investigation failed to reveal the presence of any unknown persons.

Officer Elliott yesterday evening found a bad gas leak in the premises of the Chinese laundryman opposite the city hall. The officer crawled over a transom and turned off the gas.

Officers Collins and Kreuckenberger were called to a house on Wabash avenue where a family disturbance was disturbing the neighbors. When the officers arrived there peace had been restored and their services were not needed.

James Carry, at No. 1003 Barr street, complained that on Saturday night someone broke open his tool chest and carried away several dollars' worth of carpenters' tools.

A COMMENDABLE WORK.

There is an enterprise at 118 East Columbia street that is carried on every evening of the week which deserves the attention and aid of all citizens of Fort Wayne. It is called the Home mission and is conducted by A. E. Whitmer and H. H. Amstutz. Many people in the city are already interested in this work and favorably impressed with it and with the need which it meets. Besides the religious services held every evening, it is desired to make the place

London, Feb. 3.—King Edward, who is suffering from a mild attack of influenza, passed a good night and is making favorable progress towards recovery. His proposed visit to the duke and duchess of Devonshire at Chatsworth has, however, been indefinitely postponed.

Consols fell off ½ this morning, which was attributed to the king's indisposition.

Sir Dighton Probyn, King Edward's equerry, officially notified the mayor of Windsor at 11 o'clock this morning that his majesty was progressing satisfactorily.

Sir Francis Laking, the king's physician, after a brief visit to Windsor Castle today, returned to London and confirmed the statement that the king had a slight attack of influenza. He said his majesty's progress was quite satisfactory.

Advices from Chatsworth say that as there is no likelihood of the king's recovery being sufficiently speedy to enable him to leave Windsor this week his visit has been indefinitely abandoned.

INDIAN GIRL DEAD.

News has just reached the city of the death of Miss Ella Romero, which occurred Friday at Newton, Kan.

Miss Romero was quite well known in this city, and her death will be deeply regretted here. She was 23 years of age and part Indian, her mother being a Cheyenne and her father a Mexican. She came to Fort Wayne with the family of Joel Welty, of Columbia avenue, and her sad history has a tinge of romance in it.

When a very young child the girl was left fatherless, and was taken under the protection of Mr. Welty's sister, who was a missionary to the Indians. Miss Welty died on the eve of her brother's marriage sixteen years ago, and the little Indian girl, then five years of age, was adopted by Mr. and Mrs. Welty, with whom she made her home for twelve years. In this city she attended the Clay school, and five years ago took up her studies at the government Indian school at Carlisle, Pa. She was to have graduated in June last, but a year ago was taken ill with consumption and was forced to leave school. For several weeks last year she was a patient in Hope hospital.

NEW RIVAL FOR ANTHRACITE.

Omaha, Neb., Feb. 3.—Dr. M. J. Gahan, of this city, has completed tests and announces that as a result of his experiments he is able to produce an artificial anthracite equal in all respects to the real article and that the product he has invented can be manufactured and put upon the market much cheaper than anthracite or even bituminous coals. Dr. Gahan has completed the manufacture of 800 pounds of his coal substitute.

The "coal" is of a gray greenish hue, not unlike moldy bread in appearance. The article is produced from chemicals, all of which but one, the inventor says, can be found in any agricultural state. The artificial coal burns with a bluish flame and its

Save Our Young Women!

Thousands Employed in Our Large
Departmental Stores and
Public Offices Are Now
Weak and Sickly.

Tell Them Of

Paine's Celery
Compound

Woman's Unfailing Regulator and
Health Giver.

In the mammoth departmental stores and large public offices of our leading cities there are thousands of young women employed. From the morning opening hour till these vast hives of trade close at night, these young women are expending their energy and strength in serving their masters and a critical public. Long hours, close confinement, imperfect ventilation, excitement, and brain worry, soon leave marks of creeping disease and sickness. Headache, sleeplessness, indigestion, constipation, neuralgia, rheumatism, and nervousness make the lives of young women miserable and almost unbearable. In thousands of cases the traces of terrible blood troubles are seen in the faces of those who should look comely and attractive.

To the class of suffering young women just referred to, we would say that Paine's Celery Compound is a blessed agent of health and womanly vitality. This medicine is a positive and true nerve food and system cleanser. It corrects any tendency to constipation; it tones the stomach, keeps digestion perfect, the brain feels the strengthening effects of the herb nutrition it affords, natural and refreshing sleep takes the place of insomnia, and the rose blush is brought to the pale face. We urge upon all sickly and weak young women the necessity of Paine's Celery Compound for their peculiar ailments. It has made thousands strong; it will give you the same happy results.

BREWERS' BILL
NOW IN HOUSE

Report Recommending Pas-
sage of the Measure is Con-
curred in There.

FIGHT COMES THURSDAY

Eloquence in Senate Over a
Question of Statues—The
Legislature.

(Special to The Sentinel.)

Indianapolis, Feb. 3.—The Luehring bill, known as the brewers' measure and purposed to abolish the remembrance clause of the Nicholson law, was reported favorably to the house today and that body concurred in the report recommending the bill for passage. Representative Wells, of Fort Wayne, is a member of the committee reporting the bill. The fight on the measure will come Thursday.

On the floor of the senate today Senators Askren, of Harrison county, and Johnston, of Montgomery county, eloquently championed the claim of the late Thomas A. Hendricks to recognition from the state of Indiana in the shape of a statue in statutory hall in the capital at Washington.

Senator Barcus' bill appropriating \$5,000 for a statue of Gen. George Rogers Clark, the hero of Vincennes, was reported from committee with a minority recommendation that the name of Hendricks be substituted for Clark's. The oratory brought out in the discussion of the report was the most notable of the session. The republicans stood together for Clark and Senators Atwood, Lindler and Hendee made carefully prepared speeches. The efforts of the members of the minority were impromptu, but none the less able. Barcus' bill was advanced by a strictly party vote.

A TILT IN SENATE

Senator Wood's garnish bill was passed to engrossment in the senate yesterday by a narrow margin. The nature of the close call for the measure lay in the fact that the democrats and some republicans opposed to the bill were drowsing when in the course of business bills were called up for second reading. The question of passing the bill to engrossment was put by Lieutenant Governor Gilbert and there being no objection he declared the matter disposed of. Then Senator Fortune and other opponents of the bill woke up. Fortune asked the lieutenant governor what was meant by rushing the bill through over their heads. A sharp passage ensued between the senator from Clark and the presiding officer of the senate.

Senator Ball's barber bill came up on second reading and was passed to engrossment without much of a fight. An amendment was adopted which provides that the bill shall apply only to incorporated cities and towns.

Senator Matson's voting machine bill was made the special order of business for Feb. 5, at 10:30 a. m.

MEASURES IN THE HOUSE

The house began the fourth week of the session yesterday by passing nine bills, killing the dentists' measure and putting itself on record as favoring the election of county superintendents by popular vote.

The Branch bill, a special order for the afternoon, was sent back to the committee with instructions to report an amendment to the above effect.

The Wright voting machine bill went to a vote after third reading without debate, although one was expected by its friends. It was passed with only three dissenting votes, cast by Seifres, Zollman and Conaway.

lar case is being handled exclusively. Yesterday there was more speculation than today. Yesterday the flood of rumors made most people anxious whether they had ever placed themselves in defiance of the law or not, but today a feeling of less uneasiness is manifest.

The grand jury is grinding away and that is about all there is to be said about it. The secrets of the jury room are being sacredly preserved and those who go in with an easy tread come out in a very thoughtful mood, but none will indicate what the questions were. Analyzing the crowd it is not hard to guess that no city cases are being investigated today. Attorney B. F. Harper was one of the few Fort Wayne men examined today, the balance being mostly country folks and they from Marion, Madison and Lafayette townships. This afternoon the Bandler criminal assault case is being investigated, the presence of the little girl, one of the principals in the case, and her mother, furnishing evidence to the outside people that the case was under examination. Then the presence of a number of people from the vicinity of Williamsport again indicates that the Lafollette cases are having an inning and a double header at that, since Justice Skelton was engaged during the afternoon with the cases against the two Harrod boys, charged with libelling the family of Dr. Lafollette. The superior court was nearly filled with the overflow and the corridors were well populated. Bailiff Daly, who has charge of the grand jury room door, probably knows less than any person who ever lived in Allen county—at least he pretends to, and as a source of information he has proven himself to be the most profound failure known to modern history. It is believed that after the cases involving the presence of witnesses from the country have been disposed of the city people will have a session that will be referred to in after years.

CLAIM DOCKET CALLED.

The claim docket was called in the circuit court this forenoon, after which a number of cases were dismissed. Notable among them were the cases of Yaggy vs. Nicker, Lochner vs. Saylor, Nagel vs. Baker and Rupp vs. McMillan, all of which related to the controversy over the election at Shirley City two years ago. One of the cases was decided by Judge Adair many months ago, and as all hinge on the same points of law the dismissals were to conform to the judgment in the other cases. Other business in the circuit court was the setting for trial of several cases, all to be heard by the court without a jury.

COURT HOUSE NOTES.

In the superior court the damage suit of Sutton vs. Anderson is on trial; demand, \$800.

Judge Heaton this morning awarded judgment to the plaintiff in the case of Mendenhall vs. Hull in the sum of \$77.71.

Judge Heaton has divorced Hannah Hendrix from Thaddeus Hendrix. He also gave the plaintiff the custody of their three children and ordered the husband to pay a stipulated sum for the support of the children until each had attained the age of 16 years.

The Edmunds Construction company has commenced action against C. H. Beard and a number of others on a mechanics' lien for \$100.

The county commissioners transacted some unimportant miscellaneous business this morning and this afternoon paid an unofficial visit to the Eckart Packing company's building.

A plot of Young's addition, in the southwestern part of the city, between Broadway and St. Mary's river, was filed with the county recorder today.

The marriage license market is suffering from a severe slump. No licenses have been issued for three days.

C. S. Fletcher vs. the Decatur Egg Case company is the title of a suit venued here from Adams county. The plaintiff lost an arm while operating a planer for the company at South Whitley and claims that the injury was caused by faulty machinery. He asks for damages in the sum of \$5,000.

George A. C. Ortleib, for a number of years deputy and for the past two years, previous to the last election auditor of this county, resigned his position as chief deputy under Auditor Smith last Saturday evening.

The county commissioners Monday granted ten liquor licenses and received the petition of the Fort Wayne and Southwestern Railroad company praying for a subsidy election to be held in Lafayette township. The company failed to make provision for the expense of holding the election and the petition went over to a future meeting.

The claim docket in the circuit court will be called tomorrow.

The REFORMER

BY CHARLES M. SHELDON.

(Copyright, 1901, by Charles M. Sheldon.)

"It is none of your business." The sentence came out with an explosion of profanity that delighted the crowd. "I am regularly appointed by the board of health as a legal officer. Do I understand that you are an officer of the city? Do you have a legal official authority in these premises?" Gordon asked calmly. The question was so simply put that its very simplicity staggered Tommy Randall. He stared and then broke into a coarse laugh that was echoed by the women.

"Official duty be—, I run this ward. I'm in charge here, and I warn you to get out and leave this business to me." "Do I understand you to threaten an officer with violence?" Gordon asked, looking him in the eye coldly. At the same time he took out a notebook, while Randall eyed him in a rage that he was trying evidently to choke down. For the first time also a trace of uneasiness mingled with his astonishment at the unexpected boldness of the young man who had thrown down the gauntlet before the boss of Ward 18. He was beginning to be in doubt concerning the young man's political pull. Nothing short of secret influence at the city hall could account for his astounding attitude.

"I warn you," Gordon talked as he jotted down something in the book and put it back into his pocket, "that I am acting fully within my authority as an officer specially detailed for this duty. I understand you make no claim to being an officer of the city. I shall proceed to secure a minister and have the services properly conducted. Mrs. Caylor is willing to have it done. Aren't you, Mrs. Caylor?"

"I don't care! Louie was a good boy; he was a good boy!" she cried, throwing her apron over her head and rocking back and forth with great sobs. During the talk she had been sitting by the door, apparently oblivious to everything. She now suddenly rose up and staggered into the room, throwing her arms over the coffin and shrieking aloud: "He was a good boy! Oh, God! Oh, God!"

Tommy Randall turned toward John Gordon with a look that was simply Satanic.

"If you attempt to interfere or make any unusual disturbance, Mr. Randall," Gordon said again as he had twice before, taking the initiative, "I shall report you to the authorities."

The statement was so simply made, it covered so much absolute authority, that for a moment Tommy Randall stared in silence, too much astonished to say a word. Then, to Gordon's surprise and to the bewilderment of the crowd, the older man put out his hand and said, with a laugh:

"You're a good one! Report Tommy Randall! Give me your hand on it, young fellow! But you have the— Say, wouldn't he make a team with another one like him?"

Again the crowd laughed coarsely, and Gordon, without seeming to notice the outstretched hand, turned his back on all of them and went into the room. Randall watched him, with a snarl on his face that prophesied any number of accounts for the future. Then he grew thoughtful, and before any one could guess his next movement he followed Gordon into the room.

Gordon had even in that brief time begun to soothe the distracted mother.

"I'll get my friend Mr. Falmouth to come down. He will have a beautiful service. He will!"

"Does Mr. Randall?" The words were spoken with a frightened air that Gordon saw at once had some good reason. But before he could answer Randall said good naturedly:

"I think we had better have the minister come down, Mrs. Caylor. That's all right."

"I'll arrange it," Gordon said briefly, as if Randall were not present. He did not care to puzzle himself at present over the man's change of manner. That it was a part of his regular policy to gain an end he knew well enough, but he was indifferent to it. His very indifference was so complete that the boss felt again that uneasiness that had come to him already as a new experience, and again that same diabolical hate included John Gordon in its sweep of future reckoning, for Tommy Randall was beginning to feel dimly, but really, that for the first time in his political career he was in the presence of a new factor. The newness of it puzzled and enraged him. It was so unknown that he could not figure on it. That made it doubly hateful to him.

John Gordon stared a little longer and then went away. The hour fixed for the service was 3 o'clock. As he went out into the corridor and groped his way down the stairs and out into the court he was plainly aware that curious faces stared at him, and a little added respect was paid him.

"The old man fell down!" muttered the woman who had foretold Gordon's humiliation at the hands of the boss. "Navy be didn't!" the tobacco user ejaculated, with an oath. "Wait till the old man gets in his upper cut. He ain't downed by no 'gent'!"

Gordon at once took a car for Nazareth avenue, and within an hour he was in the Rev. Paul Falmouth's study, which was in the rear of Nazareth Avenue church.

"Glad to see you, Gordon," Falmouth said as he rose and greeted his visitor cordially. The minister was a grave faced man of thirty-five. The books, papers, pictures and articles of interest in his study proclaimed a student if not a scholar. The man himself had a reserve power. How much more than that was not apparent at first sight.

"I'm sorry to disturb your morning, Mr. Falmouth. I know your rule, but this is a case of death. I know you would listen to me."

"Certainly; go on. I was thinking of you just a minute ago and planning to come down to Hope House and see you. Of course I know you have done. The papers?"

"Thank you, Mr. Falmouth, for your kind letter. It did me good. I'll be glad to see you at Hope House. But I know how busy you are!" Gordon glanced at the minister's desk, which was covered with open books, manuscripts in various degrees of preparation and a miscellaneous heap of correspondence which told the particular story of a laborious life.

"I'm always busy, Gordon." The words were spoken with a sigh that was instantly repressed. "But for more reasons than one I want to see you and have a good long talk with you."

"I'll be very glad. But this is my errand this morning. I want you for a funeral service this afternoon."

He went on rapidly to relate the brief story of Louie, without reference to Randall or any of the occurrences that had brought him into the tragedy.

"I'll go, of course," Falmouth said instantly when Gordon paused. "Shall we have any singing? Have you any one in Hope House?"

"I had an idea as I came along up," Gordon spoke with a little hesitation. "If this was a funeral on Park boulevard for a rich man's son and you were called on to officiate, who would probably sing?"

"Why, the Nazareth Avenue quartet, I suppose. That is the arrangement made with them by the church music committee—that I am to have their services whenever I conduct a funeral. But—"

The Rev. Paul Falmouth paused. He saw at once the bearing of Gordon's question. Gordon watched him closely.

"Why not?" the minister said. He rose and went into an adjoining room and rang a telephone bell. Gordon could hear him talking. When he came out, he said simply:

"The quartet will join me here at 2, and we will go down together. I don't think any of them have been down on Bowen street. But, for that matter, neither have I. It won't hurt us any to see it."

"I don't know about that, sir. I'm of the opinion that it will hurt you. But isn't it about time that somebody besides the people around Hope House was hurt by what is going on there?"

The minister was silent. He understood fully all that Gordon implied by his remark. When he lifted his head, Gordon had risen to go.

"Don't go, Gordon—that is, unless you have to. Why can't we have that talk now as well as any time?"

"We can unless you are too?"

"Busy? But it can wait. There's an article for the Homiletic Review; there's another for the North Ameri-

can; there are two sermons, an address before the convention of Christian citizenship and a list of church duties that is never caught up with. But I question if any of all of it is as important as some of the things I want to discuss with you."

He paused, and his grave face lighted up with a gleam of interest that transformed his scholarly appearance into something quite different. Gordon sat down again.

"What do you think of the church, Gordon? How much is it worth after all?"

The question surprised Gordon. "I'm not a judge and don't want to be. I neglected my duties to the church, and I am the last man in the world to criticize it."

Falmouth sat silent awhile. "The church in this city is not doing its duty," he said at last. "It sometimes questions how much it is really obeying Christ's commands. When I consider the wealth and business ability and talent and culture in my own individual church alone, I cannot help asking myself how much of it is really consecrated to the uses of the kingdom. I do not know six men in my own congregation who accept the doctrine of God's ownership of property, so plainly taught in the Bible and by Christ. When I preach on the subject, my people listen in a half amused manner, as if I were a theorist giving out ideas that will not work in the practical business world. There are not a dozen people in my whole parish who give one-fourth of their income to the religious work of the world."

"How large is your church?" Gordon asked. He was growing exceedingly interested in Falmouth's monologue, for the minister had talked on as if alone.

"We have 976 names on the church roll. There are seventy-two absentees. Over 900 resident members. There are

ABOUT THE CITY HALL.

The meeting of the board of works yesterday afternoon was unproductive of anything of importance. Nothing new of any character was taken up and with the exception of ordering plans for several minor sewer improvements nothing was spread upon the minutes.

The new case of scarlet fever reported at 418 West DeWald street presented an unusual feature or two. The patient is Mrs. Edward Dierkes, whose husband is just recovering from an attack of diphtheria. When it is known that the couple have been married only about three weeks it will be granted that their honeymoon is not altogether the kind that newly wedded couples pray for.

The board of public safety will meet in regular session this evening.

THE MARKETS.

Chicago, Feb. 3.—Weakness at Liverpool was a factor in causing an easier opening in wheat in this market and May was off 1/4c to 1/2c at 77 1/2c to 78c. Reports of an advance equal to 1 1/2c to 2c at Paris caused a better demand shortly after the opening and after selling at 77 1/2c, May held steady around 78 1/2c. Local traders were the best sellers, while offerings were taken largely by commission houses. Minneapolis and Duluth reported receipts of 234 cars, which, with local receipts of 81 cars, with contract grade—made total receipts for the three points of 315 cars, against 409 last week and 302 cars a year ago. There was considerable selling on Bradstreet's report showing a big increase in the world's visible supply, and May declined to 78 1/2c, but on an active demand the latter part of the session, strength returned. May closed 1/4c higher, at 78 3/4c.

Liberal receipts and weak cables caused lower prices in corn at the start, May being down 1/4c to 1/2c, at 44 1/2c to 44 3/4c. The embargo of the

patrons on eastern grain shipments was partly responsible for dullness in the pit. Prices were steady the first hour and fluctuations were narrow. Local receipts were 537 cars, with nine of contract grade.

The close was firm and a shade higher for May, at 44 1/2c to 44 3/4c.

Oats opened easy with other grains. Offerings were not heavy and the market was steady at the decline. May was unchanged to a shade lower, at 36 1/2c to 36 3/4c. Local receipts were 339 cars.

Provisions opened firm on smaller receipts of hogs and an advance of 5c in prices at the yards. May pork opened 7 1/2c to 10c higher, at \$16.47 1/2 to \$16.50; May lard was unchanged, at \$9.45; and May ribs were a shade higher, at \$9.02 1/2. A fair demand for the May delivery caused firmness in that month, while other products were steady.

The Close.

Prices at the close were as follows:

Wheat—May, 78 3/4c; July, 74 1/2c to 74 3/4c.

Corn—Feb., 43 1/4c; May, 44 1/2c to 44 3/4c; July, 43 1/4c; Sept., 43c.

Oats—Feb., 33 1/2c; May, 36 1/2c to 36 3/4c; July, 32 1/2c.

Pork—May, \$16.47 1/2; July, \$16.35.

Lard—Feb., \$9.45 1/2; May, \$9.42 1/2; July, \$9.35 to \$9.27 1/2.

Ribs—May, \$9.15; July, \$9.02 1/2 to \$9.05; Sept., \$9.02 1/2.

Rye—May, 51c.

Flax—Cash N. W., \$1.20; S. W., \$1.15; May, \$1.21 to \$1.22.

Eggs—Market weak; 20c.

Cheese—Market steady; twins, 13c; daisies, 13 1/2c; young Americas, 13 1/2c.

Chicago Live Stock.

Chicago, Feb. 3.—Cattle—Receipts, 5,000; market steady; good to prime steers, \$4.00 to \$6.10; poor to medium, \$3 to \$4.60; stockers and feeders, \$2.25 to \$4.50; cows, \$1.40 to \$4.50; heifers, \$2 to \$4.75; canners, \$1.40 to \$2.50; bulls, \$2.25 to \$4.25; calves, \$2.50 to \$6.75; Texas fed steers, \$3.50 to \$4.50.

Hogs—Receipts today, 27,000; tomorrow, 30,000; left over, 5,300; market steady to strong; mixed and butchers, \$6.50 to \$6.80; good to choice heavy, \$6.80 to \$6.95; rough heavy, \$6.50 to \$6.80; light, \$6.80 to \$6.90; bulk of sales, \$6.50 to \$6.80.

Sheep—Receipts, 12,000; market steady to strong; good to choice wethers, \$4.40 to \$5.25; fair to choice mixed, \$3.50 to \$4.40; native lambs, \$4.40 to \$6.40.

The Day on Wall Street.

New York, Feb. 3.—Prices as a rule were a shade higher at the opening. Good fractional gains were made by Delaware and Hudson, St. Louis and San Francisco, Ice preferred, Erie first preferred and American Smelting. Erie second preferred got up a point and Anaconda jumped 3/4.

Traders undermined the opening rise in the market by realizing. Bear operators then put out short lines when they perceived the inability of the market to absorb the small offerings. St. Paul, Missouri Pacific, the Eries, Sugar and Delaware and Hudson felt the pressure most, the last two named reacting over a point. North American declined 2, General Electric 2 1/2 and Sloss-Sheffield Steel 2 1/2.

The market shrank to nominal proportions and only special stocks moved appreciably. The Eries advanced an additional fraction. Sloss-Sheffield Steel rallied 2 1/2. Anaconda advanced 5 in all. Lacelle Gas preferred 5, and Smelting preferred, Chicago Union Traction, Consolidated Gas and National Lead about a point. New York Central sold down easily 1 1/2. There were declines of a point in Hocking Valley, 1 1/2 in Toledo, St. Louis and Western, 1 1/2 in Ice preferred, 2 in Cotton Oil preferred and 5 in Pittsburg, C. & St. Louis.

Bonds were easier at noon.

The market's undertone hardened gradually on the extensive buying of a few specialties. Erie second preferred was taken in large blocks and gained 2 points in all. Lead common and preferred also made similar advances. Wheeling and Lake Erie first preferred and second preferred rose 1 1/2, respectively. Steady pressure against New York Central repressed active buying of other standard stocks.

Buying of the Wabash securities advanced the common stock to 31, the preferred to 47 1/2 and the debenture 'B's to 81 1/2. These prices represented advances over night of 3/4 to 2 points. Other Gould stocks firmed up in sympathy and there was a good demand for Rock Island at a sharp fractional advance. There was little of interest in other leading stocks. Keokuk and Des Moines advanced 1 1/2 and U. S. Express 4. Delaware and Hudson fell a point below yesterday's closing.

Heavy buying orders developed for U. S. Steel, which carried it 1 1/2 over yesterday, and the preferred 7/8. There were advances of 1 to 1 1/2 in Tennessee Coal, Colorado Fuel and Wheeling and Lake Erie, and U. S. Express rose 7. Sugar recovered its loss and General Electric rallied 1 1/2. Prices moved up higher elsewhere, Pennsylvania gaining 1 1/2, but the trading was light. St. Louis and San Francisco dropped to

1 1/2 under last night, and Lake Erie and Western dropped 2 1/2.

The closing was rather irregular.

The Money Market.

New York, Feb. 3.—Money on call easy at 3 per cent; prime mercantile paper, 4 1/2 and 5 per cent; sterling exchange firm, with actual business in bankers' bills, at 48 1/2 to 48 1/2 for demand and at 48 1/2 to 48 1/2 for 60-day bills; posted rates, 48 1/2 and 48 1/2; commercial bills, 48 1/2 to 48 1/2; bar silver, 47 1/2; Mexican dollars, 37 1/2.

SORE HANDSItching, Burning Palms,
Painful Finger Ends,With Brittle, Shapeless,
Discolored Nails,As Well as Roughness and
Redness,**ONE NIGHT TREATMENT**

Soak the hands on retting in a strong, hot, creamy lather of Cuticura Soap. Dry and anoint freely with Cuticura Ointment, the great skin cure and purifier of emollients. Wear, during the night, old, loose kid gloves, or bandage lightly in old, soft cotton or linen. For red, rough and chapped palms, dry, fissured, itching, feverish hands, with brittle, shapeless nails and painful finger ends, this treatment is simply wonderful, frequently curing in a single application. In no other way have Cuticura Soap and Ointment demonstrated their astonishing curative properties more effectually than in the treatment of the hands, especially when tortured with itching, burning and scaly eruptions.

Complete local and constitutional treatment for every humor of the skin, scalp and blood, with loss of hair, may now be had for one dollar. Bathe freely with hot water and Cuticura Soap, to cleanse the surface of crusts and scales, and soften the thickened cuticle. Dry, without hard rubbing, and apply Cuticura Ointment freely, to allay itching, irritation and inflammation, and soothe and heal, and, lastly, take the Cuticura Resolvent Pills, to cool and cleanse the blood. This treatment affords instant relief, permits rest and sleep in the severest form of eczema and other itching, burning and scaly humors, and points to a speedy, permanent and economical cure of torturing, disfiguring humors from infancy to age, when all other remedies and the best physicians fail.

Varicocoele

WASTING OF TESTES

Dr. JOSEPH ENK'S

Genuine Dynamized Number

Homeopathic Preparation 70

(Four Vials—Price \$2.00)

Cures Varicocoele and the resulting wasting of testes and penis. Varicocoele is caused by heavy lifting, straining, nervousness, hard study and manual labor, being a varicose condition of the seminal veins, just as hemorrhoids are a varicose condition of the rectal veins. The retention of the blood in the system seems to be singularly evil in its action upon the entire system. The blood is filled with earthy waste in these cases, and the diagnosis is simple. We guarantee a cure in every case within a very short time. Once cured with the ENK Preparation you are always cured.

MR. RORISON IN**GOOD POSITION**Is Elected Vice President and
Manager of Federal As-
phalt Company.**ACCIDENTS OF THE DAY**Two Nickel Plate Cars Upset
in the Yards—Other
Mishaps.

Brainard Rorison, who was for several years secretary of the Fort Wayne Electric corporation, when the late R. T. McDonald was at the head of the big establishment, has been elected vice president and manager of the newly reorganized Federal Asphalt company. Mr. Rorison left this city five or six years ago to go to London in the interest of the Electric corporation, but he has been a frequent visitor here since that time. Concerning him, the Indianapolis Journal says: "Brainard Rorison, formerly a well known citizen of Indianapolis, who has for many years been interested in asphalt pavements, has been elected vice president of the Federal Asphalt company, of Chicago, which owns the asphalt rock mines in Kentucky and has a paid-up capital of \$5,000,000, largely owned by the officers and directors of the First National bank, of Chicago. Mr. Rorison, who will now have the immediate supervision of the company's contracting department, will begin his new duties at once. His wife and daughters will spend all of February on the golf coast before joining Mr. Rorison in Chicago."

Send Out Checks This Week.

In accordance with the order of the management issued several weeks ago, the Pennsylvania will send out checks this week to all of the employees who served in the national guard during the strike last summer in the anthracite coal regions as pay for that period. The checks will be amounts equal to the earnings of the men had they been at work on the road instead of in the militia that length of time, not deducting the little that was allowed them by the state while at the mines. Many of the conductors, engineers, firemen, brakemen and clerks are members of the national guards and there are several hundred of them throughout the state of Pennsylvania. The Pittsburgh Dispatch says: "It is believed that the railroad company has suddenly realized that it cannot hold its good men unless it is more liberal, as it has found itself short-handed through employees leaving for better positions. Railroads in the Pittsburgh district never needed more good men than now. The enormous freight tonnage offered, the inadequate facilities and the increased amount of work have demanded an increased number of competent men for increased hours. Never was there a time when the good men of the railroads were more in demand at better salaries by outside business and manufacturing interests. The result is that competent young men have been deserting the drudgery and long hours of the railroad for positions of shorter hours and less strain. It is believed the strike distribution will check this."

New Names on Pay Role

Bernard Fitzpatrick, a machinist from Washington, D. C., has taken a position in the Pittsburgh machine shop. He is the son of Frank Fitzpatrick, a machinist employed in the government navy yards at the capital, and a nephew of Master Mechanic E. Fitzpatrick, of the Pennsylvania. Henry Wilson, a toolmaker, has resigned his position at the Wabash shops for the purpose of taking a position at the Pittsburgh shops. James Smith, a machinist who resigned a position at the Wabash shops four years ago to go to Parsons, Kan., to work, has returned here and taken his old place in the Wabash shops. Machinist Henry Young, who was recently employed in the Lake Shore shops at Elkhart, took a position at the Wabash shops this morning. Elmer Green, a brakeman recently employed on the Cincinnati Northern road and residing at Van Wert, has taken a position on the Nickel Plate.

William Tombaugh has taken a position as truckman at the Wabash freight house. Frank Diltz is a new laborer in the yard gang at the Wabash shops.

Reminded of His Promise.

Wayne division, No. 119, Order of Railroad Conductors, of this city, has written the following letter to Senator Fairbanks, at Washington, which has been filed in the senate in the shape of a petition: "Your constituency in the Twelfth Indiana district, comprising the 100 members of Wayne division, No. 119, Order of Railroad Conductors, again wish to remind you of our extreme anxiety for early and favorable consideration of the Grosvener anti-injunction and conspiracy bill. We remember your kindly and frank letter of last session promising support and we earnestly beg of you

The Accidents.

There was an annoying accident in the Nickel Plate yards early this morning. A freight train which was about to leave the yards had two cars upset in a peculiar manner. The train was in two parts and as the engine hooked onto one section and started to pull it forward preparatory to backing up and hooking onto the other portion, the cars locked at the switch on account of being left too close and two of them were overturned. One of the cars was heavily loaded with steel rails and this added to the difficulty of picking up the wreckage. The other car was empty.

W. A. Schramm, a patternmaker at the Pittsburgh shops, had his right hand sprained and bruised yesterday by striking it against the banister as he was going up the stairs at the shops.

Machinist Apprentice N. O. Jettlinger, of the Wabash shops, has gone to Springfield, Ill., to have a piece of steel which is embedded in one of his eyes removed by the company oculist. Ed Hanley, also an apprentice at the Wabash shops, has gone to the Peru hospital to receive treatment for an abscess which has formed on the side of his neck.

Norman Nestle, an apprentice at the Wabash shops, will go to St. Joseph hospital for an operation for rupture. Dr. Rosenthal will perform the operation.

John Hartwick, an apprentice at the Wabash shops, had an eye injured this morning by a piece of steel getting into it. He had to seek the assistance of the company's surgeon.

Gone to Hot Springs.

Engineer Joseph Bracht, of the Nickel Plate, is taking a lay off on account of an attack of rheumatism, which is more severe than common. He left today for Hot Springs, where he will take treatment at the sanitarium. Mr. Bracht has been very unfortunate the past two years. After recovering from an attack of rheumatism, which disabled him for several weeks, he met with an accident in the yards which laid him up several weeks.

Three New Members.

The A. G. Porter lodge, No. 141, Brotherhood of Locomotive Firemen, at its meeting last evening, added the names of W. O. Granger, of the Nickel Plate; E. Stuart, of the Lake Erie and Western; and O. Root, of the Pittsburgh, to its membership roll.

On a Ten-Hour Schedule.

Ten hours per day is the new work schedule at the Pittsburgh machine shop, and it is a welcome change. A night force has been employed and this made the reduction of working hours possible. The day men had been working thirteen hours per day.

Industrial Notes.

A new time card will go into effect on the Pennsylvania next Sunday. I. Bott and F. J. Ruch, Pittsburgh shopmen, are off duty on account of sickness.

A. Dixon, a car builder at the east car shops, is off duty on account of sickness.

Mrs. J. A. Howard, wife of a Pittsburgh engineer, is preparing for a visit in Chicago.

General Superintendent A. W. Johnson, of the Nickel Plate, was in the city last night.

Nickel Plate Brakeman E. J. Somers had the misfortune to sprain one of his ankles yesterday.

Robert Pitcairn, of the Pennsylvania, passed through the city last night, accompanied by his family.

Supt. D. F. Crawford, of the Pennsylvania, has gone to Pittsburgh on business for the motive power department.

Charles Crosby, night caller for the Nickel Plate engineers, is off duty on account of injuries sustained while in the country last Sunday.

Mrs. J. A. Ludington, wife of the Pittsburgh shopman, will arrive home this evening. She has been visiting at Martinsville, Ind., for several weeks.

James Barker, general passenger agent of the Missouri, Kansas and Texas, died at Sulphur Springs, Texas, on Friday night of Bright's disease.

Conductor George McCormick and

Brakeman John Miles have returned to their respective places on the Nickel Plate, after a few days' absence.

Following the example of the Grand Rapids and Indiana, the Michigan Central officials have issued an imperative order that all employees must be vaccinated.

H. W. Weideman, of the Pittsburgh shops, is off duty, looking after some private matters. His house on Liberty street was damaged by fire at 4 o'clock yesterday morning.

Master Mechanic George James, of Stony Island, spent the afternoon in the city yesterday, instructing Mr. Kinney, the new general foreman, in the duties of his office.

Twenty-one carloads of rails for the Fort Wayne Traction company arrived here last night and are now on a siding at VanBuren street, on the Nickel Plate. This steel came from Lorain.

W. H. Evans, general foreman of the Baltimore and Ohio shops at Chicago, has resigned and accepted a good offer from another line, to become effective whenever his successor is selected.

Several engines from the eastern division of the Pennsylvania have arrived here to remain until there is a falling off in traffic or until they are needed on the branch to which they belong.

The Southern-Pacific company will soon order the construction of what is known as hospital cars. That is, cars provided with all the necessities and appliances for the first care of the injured.

D. T. Bacon, who retired Sunday from the office of general manager of the Indiana Car Service association, was in railway service forty years, commencing as a clerk in a New York freight office.

As indicating the prospective condition of the times, a Pacific coast railway official cites the fact that second class travel westward has fallen off, while first class travel has correspondingly increased.

Ridgeville has lifted the quarantine against Winchester, placed some time ago on account of the smallpox epidemic in the latter place. Portland, Geneva and Brant are expected to raise quarantine also.

All the station agents and telegraph operators on the Southern Pacific, between El Paso and New Orleans, have received an increase in wages, which will increase the pay rolls of the company fully \$25,000 per year.

The net earnings of the roads known as the anthracite coal lines increased in December \$502,589, but for the last six months the exhibit was less favorable, a decrease of \$2,503,506 being shown as compared with the last six months of 1901.

Passenger Engine 171 has left the Stony Island shops, after receiving general repairs. It has been assigned to trains 1 and 4, between this city and Bellevue, with Engineers P. McGushing and C. F. Long alternating at the throttle.

The Empire State express recently made the run from Auburn to Buffalo, 302 miles, in 235 minutes. The run was made by engine 2929, the latest product of the American Locomotive company, which came out of the shops only ten days before making the run.

A pipe burst in the engine room at the Western Gas Construction company's works yesterday morning, causing a suspension of operations in the machinery department, although the vice men worked as usual. Repairs were made last night and the factory is in full operation today.

J. H. Moore, president of the Chicago, Rock Island and Pacific, accompanied by a party of friends, is on his way home to the west. He travels on a special train. Two palace stock cars were part of the train, and each carried fourteen fine horses, the lowest priced one being valued at \$2,000.

President Joseph Ramsey, of the Wabash, has promised to sign the new wage scale agreement with the Brotherhood of Locomotive Engineers on February 9. The agreement is in the nature of a compromise, Mr. Ramsey recognizing the brotherhood and the engineers accepting the old wages.

Thomas Beals, the veteran machinist who lost an eye while at work in the Pittsburgh round house several months ago, has returned to work, having been assigned to less arduous work in the vice department, under Foreman F. C. Meyers. Mr. Beals met with his injury through the bursting of a water glass in an engine cab.

The Big Four has made a compromise settlement with its machinists, who demanded an increase in wages. Under the agreement the wage scale will be twenty-nine cents per hour east of the Indiana and Illinois state line, and thirty cents west of that line, with extra for overtime. Last July the men were given a 5 per cent. raise.

A. D. Craig will be in the city the latter part of the week and will conduct the meeting at the Railroad Y. M. C. A. next Sunday afternoon. Prior to his removal to Bicknell, Ind., where he is publishing a paper, Mr. Craig was a passenger brakeman on the Pennsylvania and one of the most enthusiastic Christians in railway circles in this city.

The pressing need of the construction corps for the services of just such young officers as Mr. Hobson, and the effort will be made to induce him to remain on active duty. The construction corps has lost the services of four able officers during the past year and with the rapidly increasing amount of construction work the navy department feels that it must stop the drain.

HAD PAID THE BILL.

Joe Manier, a Grand Rapids fireman, is about the most indignant man to be found in Fort Wayne today. He was roused out of bed this morning early by a deputy marshal from Portland, Ind., who had a capias of some kind issued for a Portland restaurant keeper, demanding the immediate payment of \$5 alleged to be due for board for Manier during a period when he stopped at that point for meals. Manier insisted that he did not owe the money and after a little delay procured a receipted bill for \$4.95, being almost identically the same bill as the one presented by the marshal. The Portland officer then apologized, said some hard things about the man who gave him the bill and went away while Manier returned and softly swore at a blue spot in the ceiling, supposed to represent the absent-minded boarding house man in Portland.

A MURDERER ESCAPES.

Fayetteville, N. C., Feb. 3.—Ed Uttley, the wealthy young man convicted of killing T. B. Hollingsworth, a hotel clerk, escaped from jail here early this morning. He had been sentenced to twenty years in the penitentiary. He is well connected.

Mr. Bowen's Note Stirs Allies

(Continued from Page Three.)

the allies 30 and France 13 per cent. of the customs receipts, besides providing for her own administration expenses and other obligations. A moderate estimate of her heavy income he placed at about \$10,000,000.

He declared that Germany had not been the aggressor and that the trouble at Fort San Carlos was almost a comic opera episode. The Panther, he said, is a small vessel and while blockading off Maracaibo she found the water inside the bar so rough that she went closer ashore to get out of the choppy seas, when she was fired upon by the fort. She replied with about 18 shots, and going closer for better range, found herself in dangerous shoal water and withdrew. This was claimed to be a great victory by the Venezuelans. They set off fireworks and had great rejoicings in Caracas. The fort was then destroyed as a lesson to Venezuela.

"What Venezuela most needs," continued the diplomat, "is an antitoxin for the revolutionary bacillus. Castro, whatever his shortcomings, is energetic and a fighter. Malos is merely a moneyed man. He was at Willemstad during the month I spent there, but I avoided meeting him. He is waiting for the psychological moment. Malos is not a soldier and does not attract popular support."

MORE CONFIDENT FEELING.

Paris, Feb. 3.—The advisers received here from Ambassador Jusserand and summarizing the status of the Venezuelan negotiations at Washington lead the officials to express more confident expectation of an adjustment of the difficulties than at any time previous. The tendency here appears to be toward allowing the allies a month or other brief period for priority collections of the customs. As it is estimated that the amount which would thus be collected will not exceed \$20,000 it is considered that it will not interfere seriously with ultimate equality in the treatment of all the claimants.

It is further said here that the negotiations have developed a general disinclination to consider a reference to the Hague court of arbitration as a means of terminating the differences.

**FRED KELLER DIED
AFTER LONG ILLNESS**

Mrs. Andrew Goeglein Succumbs at Hospital—Other Mortuary Matters.

Fred Keller, for many years a farmer in this county, died at 1 o'clock this morning at his home, 527 Organ avenue, after an extended illness from Bright's disease. Mr. Keller was sixty-six years of age. He was born in Franklin county, Pa., but came to Fort Wayne from Ohio in 1860. His wife died some years ago and there are three children surviving—Farris Keller and Mrs. Edward Wickliffe, of this county, and Edmund Keller, of Cripple Creek, Col. The deceased also leaves five brothers.

GOEGLEIN.

Mrs. Christine Goeglein, wife of Andrew Goeglein, died Monday night at St. Joseph's hospital, at the age of forty years. For some time Mrs. Goeglein had been a sufferer from gallstones and several days ago a surgical operation was performed as the only hope of averting fatal consequences. The effort was futile.

Mrs. Goeglein was a native of Germany. She resided at 1320 Taylor street and the surviving relatives include the husband, the parents, two brothers and two sisters.

BUSCH.

Frederick Karl Harry Busch, the little son of Mr. and Mrs. Nicholas Busch, of 1029 Lake avenue, died at 3 o'clock this morning from meningitis after an illness of three weeks. The little one was four years of age. Funeral services will be held from the residence Thursday afternoon at 2 o'clock and Rev. Miller will officiate.

MICHAELS.

The infant child of Mr. and Mrs. J. Michaels, of Zanesville, died Sunday and the funeral services were held Monday.

The father is a general merchant at Zanesville.

JACKSON.

Alexander S. Jackson, 11 years of age, a son of Mr. and Mrs. F. W. Jackson, of 2845 Fox avenue, died Monday night from dropsy.

Funeral services will be held from the residence at 9 o'clock Wednesday morning, and the interment will occur at Huntertown.

FUNERAL ANNOUNCEMENTS.

Kuder.—Funeral services of Mrs. Elmore Kuder were held this afternoon at 2:30 from the residence of her daughter, Mrs. Gordon, 1619 Green street, Rev. Field officiating. The remains will be shipped to Warsaw for interment.

Luhmann.—Funeral services of William Luhmann will be held Wednesday afternoon at 1:30 from the residence, 807 Canal street, and at 2 o'clock from St. Paul's Lutheran church.

DIPLOMATIC CHANGES.

Washington, Feb. 3.—Charles B. Hart, United States minister to Colombia, has resigned that office and A. N. Beaupre, the present secretary of legation at Bogota, has been appointed minister to succeed him. Alban G. Snyder, of West Virginia, formerly United States vice consul at Porfirio Diaz, Mexico, has been appointed secretary of legation to succeed Mr. Beaupre. The latter was appointed from Illinois. Mr. Hart has contemplated resigning for more than a year, as he desires to return to newspaper work in West Virginia.

TO ADVANCE ANTI-TRUST BILLS.

Washington, Feb. 3.—Senator Fairbanks, from the committee on judiciary, today reported favorably the bill providing for the expedition of anti-trust proceedings in the federal courts. It directs the circuit courts to give preference to such litigation over all other cases upon the representation of the attorney general, and also provides for the appeal of anti-trust cases to the United States supreme court instead of the circuit court of appeals.

STILL FAR APART.

Indianapolis, Ind., Feb. 3.—The coal miners' and operators' joint sub-committees which have the work of settling the wage scale for Indiana, Illinois, Ohio and western Pennsylvania, and incidentally for twenty other states, began another day's battle behind closed doors today. Both sides are still standing firm against each other's demands and there are no indications of a settlement.

LAWLESSNESS IN WATERBURY.

Waterbury, Conn., Feb. 3.—Today, like last night, the first demonstrations of lawlessness developed in what is known as the Brooklyn dis-

Liquozone Kills All These Germs.

Germs in the throat—cough.
Germs in the bronchial tubes—bronchitis.
Germs in the tonsils—tonsillitis.
Germs in the glands—quinsy.
Germs in the lungs—cold or consumption.
Germs in the blood—la grippe.
Liquozone cures the cause of these troubles, and the results are immediate.
Gargle it, and it stops a cough in a minute.
It cures sore throat in a night.
Three doses—right at the start—will head off a cold or la grippe.

When one of these troubles become deep seated, Liquozone will cure it, just as soon as you get enough of this oxygen into the blood to overcome the germs. No medicine known can do that.

Try Liquozone under our warrant and see how quick and how sure it is. Then when you have found it out, help us tell your friends about it.

WARRANTED:—Liquozone is guaranteed for any trouble caused by germs. If it doesn't cure, tell your druggist, and he will cheerfully refund all you paid.

Liquozone is liquid oxygen—that is all; no drugs in it. Any good physician will assure you that it kills all germs, in side or outside, and that it is good for you. It is very pleasant to take. Two sizes—50c and \$1.00.

W. M. KLINKE, Manager.

Just before noon a knot of foreigners gathered in the vicinity of the trolley line and stones were thrown at intervals. The crowd increased and at length four cars were attacked with a fusillade of missiles. The guardsmen charged on the crowd and dispersed it. A company of militia was hurried to the scene. A detail of six soldiers also was placed on each car. Later Mayor Kidduff and Police Chief Egan repaired to the military headquarters and went into conference with General Frost.
